National contact: sales@mirka.com

2. Product description

WPF Pro is a high-quality waterproof abrasive with a lasting aggressive cut. It is both curl resistant and non-absorbent, and the minimal suction to the surface gives a smooth sanding movement. WPF Pro gives you both time and cost savings as each repair job completes faster. Suited for manual wet sanding of paints, primers, lacquer, metal and composite materials.

3. Suitable Materials

- Primer
- Non-ferrous metal
