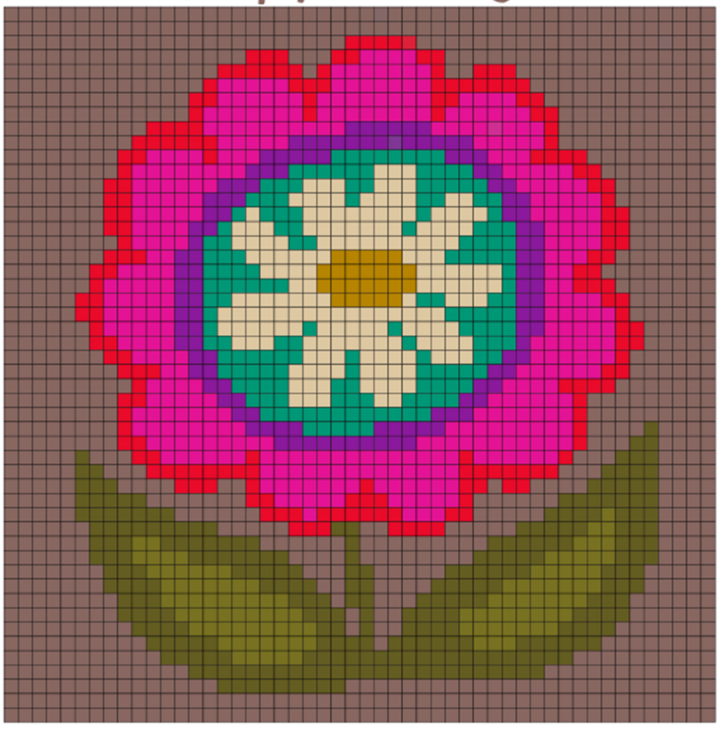
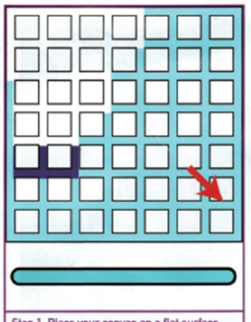
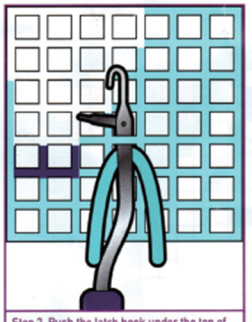
LATCH HOOK GUIDE

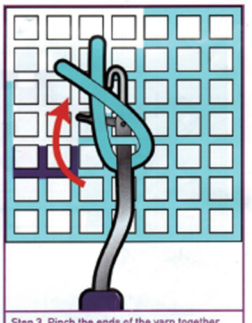




Step 1. Place your canvas on a flat surface with the colored side up.
Starting from a corner choose a piece of yarn that matches the color of the top of the square that you are working with.

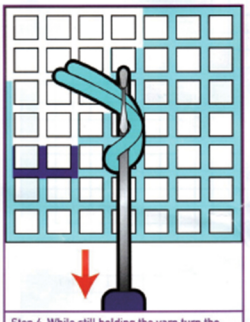


Step 2. Push the latch hook under the top of the square sideways and open the latch.
Place the yarn under the bottom part of the latch hook.

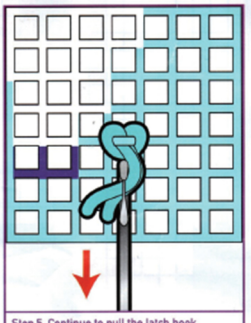


Step 3. Pinch the ends of the yarn together and loop them over the latch and around the hook.

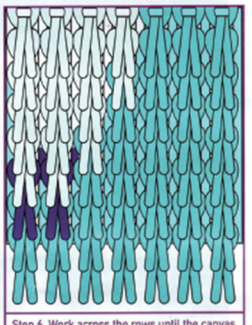
*Pro tip: If the top of the box on the canvas has more than one color on it use the color that covers the most space.



Step 4. While still holding the yarn turn the hook so it is facing up. Pull the handle towards you and let go of the yarn when the latch closes.



Step 5. Continue to pull the latch hook through the top of the box and yarn loop until both yarn tails are free. Give the tails a tug to secure.



Step 6. Work across the rows until the canvas is full. Use the loops on top on to display your creation on the wall or use it as a mini rug!
