

TECHNOLOGY + DIGITAL

SPOTLIGHT

"The G+T Legal Pentathlon is an exciting, interactive, full day of creative problem solving, designed to enable clerks to experience the G+T mindset way of working and innovating. This hands-on legal design-based training purposefully incorporates a sense of 'play' and represents an entirely new approach to simulated legal learning. Universally, participant feedback demonstrates that this new training model successfully creates an excellent opportunity for clerks to experience the firm 'walking our talk'. We can't wait to share the experience with you!"

Kate Dillon, Transformation Lawyer

ERICA CHAN,
Lawyer

Hi, I'm Erica. I clerked at G+T back in 2013, did my grad rotations in 2015-2016, and have been happily settled as a Technology + Digital Lawyer for the last three years. So I like to think I'm fully qualified to say that what makes G+T stand out for junior lawyers are the unparalleled opportunities for growth and training.

Here's just a brief overview of some of the opportunities I've had over the last few years: I've been sent on two external secondments, and am currently on a part-time 'virtual' secondment that has seen me leading negotiations with the general counsel of multinational companies on key strategic IT contracts as a second and third year lawyer. Other amazing work has included helping to draft the telecommunications and postal legislation for Qatar, supporting negotiations on a key IT and telecommunications infrastructure contract worth over \$1.5 billion, and assisting Telstra to launch new products to customers through contracts serving millions of people.

How is this possible? Because G+T's unique place in the market and our relative size gives us all the benefits of top tier work, plus all the benefits of a firm small enough to be flexible, treat people as individuals, and support team members to seek the opportunities that interest them.
