

COMPETITION + REGULATION

SPOTLIGHT

"THEIR EXTENSIVE EXPERIENCE WITH COMPLEX COMPETITION MATTERS AND REGULATORS STANDS THEM APART AND ENABLES THEM TO PROVIDE VALUABLE INSIGHTS. IN ADDITION, AT A PERSONAL LEVEL, THE TEAM IS ALSO A PLEASURE TO DEAL WITH AND HIGHLY RESPONSIVE TO OUR NEEDS."

CLIENT FEEDBACK

IVY NGUYEN,
Lawyer

I started as a grad at G+T in 2017. Since then, I've worked with public and private sector clients from an eclectic bunch of industries including international airlines, animal pharmaceutical products, universities, renewable energy, rail, death services (funerals and cremations), alcoholic beverages and wagering services. I've learnt about the ins and outs of products I would have never otherwise known about - everything from kombucha to dog flea collars! Currently, I'm working on a wide variety of work including an international merger which involves many jurisdictions including the US, the EU, Ukraine, Thailand, China, Vietnam, New Zealand and many more!

As part of a rotation in C+R, I spent 2 weeks in Sydney meeting the broader team and getting involved in matters up there. This makes it easier to continue to work from Melbourne on crossborder matters because you've established those relationships. On a more permanent basis, my work always includes a mix of matters from Melbourne and Sydney clients, which ensures exposure to a variety of skills. For client meetings or during critical periods on a matter, I tend to head up to Sydney to work out of the office there. I'm a few frequent flyer points away from lounge access!

Some highlights of my time at G+T include managing Federal Court litigation in Brisbane for a pro bono client, weekly futsal matches involving equally uncoordinated and competitive lawyers and vigorous debates at our G+T book club meetings where we read everything from comic books to the works of Toni Morrison, Nobel prize winner.
