

# RAPIDSET 5

## Cement

**Description** RAPIDSET 5 is a specially formulated fast setting, high strength cement. It is especially useful for near surface applications including R/C, Diamond and Water well applications for loss of circulation or cementing pre-collar casing.

**Applications/Functions**

- Cement pre-collars in place
- Plug off, near surface, loss circulation zones

**Advantages**

- Reduced setting time combined with rapid strength development
- Provides versatile solution for multiple cementing applications
- Easy one product mix
- Due to rapid set time, reduced rig idle times

**Typical Properties**

- Appearance Grey Powder
- Specific Gravity 2.5 – 3.2

**Recommended Treatment**

Add a 15 kilogram pail to 12 liters of water

**Due to its accelerated set time, the use of mechanical pumping equipment is not recommended**

**Packaging** RAPIDSET 5 is packaged in 15 kilogram re-sealable plastic pails

**Availability** RAPIDSET 5 can be purchased through any Baroid Industrial Drilling Products Retailer. To locate the Baroid IDP retailer nearest you contact the Customer Service Department in Houston or your area IDP Sales Representative.
