

# Mirlon® Soft R/G

## Sanding and cleaning of surfaces

Mirlon Soft R/G is an absorbent sponge, incorporating our well-known Mirlon products. It consists of two different abrasive sides: coarse on one side, fine on one side, with a sponge in the center. The absorbent, high quality sponge is shaped to fit the palm of your hand, making it ideal for hand sanding – both wet and dry.

### Features

- Can be used on both sides: coarse and fine grain in one product
- Absorbent sponge – Ideal for washing with cleaning agents
- Adapted shape – Optimal for hand sanding

### Main areas of use

- Washing with cleaning agents (on galvanized surfaces)
- Matting of painted surfaces
- Pre-treatment of plastic surfaces
- Woodworking
- Paint and cement residue removal

### Technical specifications
