

MIRKA

180° sanding head flexibility

Mirka® DecoSander

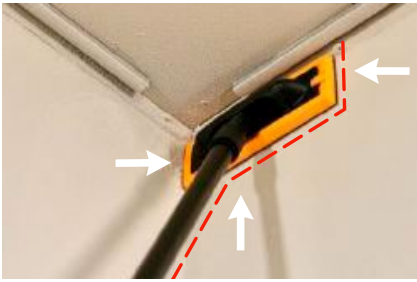

Dust-Free Pole Sander for Smooth Wall & Ceiling Finishing

Mirka® DecoSander is a versatile pole sander with interchangeable pads and dust-free operation. It's designed for efficient wall and ceiling sanding, particularly excelling in corner sanding and offering excellent flexibility and user convenience.

- Adjustable telescopic shaft
- Lightweight (less than 0.8 kg)
- Grip-friendly handle for reduced fatigue and easy handling
- Stabilized sanding head
- Integrated dust extraction with antistatic properties and adjustable airflow control
- Interchangeable sanding pads with grip fastening

mirka.com

▶ 80 × 230 mm sanding pad

- Perfect for precision tasks and confined spaces, offering superior control and ease of handling.
- Allows you to access corners and other hard-to-reach areas, ensuring flawless results.

▶ 225 mm sanding pad

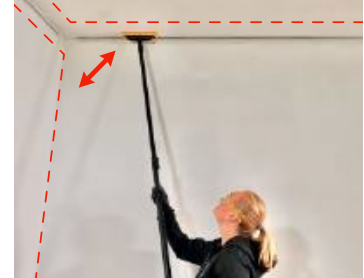

- Ideal for use on flat surfaces, providing effortless, consistent sanding for an even finish across larger areas.

APPLICATIONS

Wall and ceiling sanding

Corner sanding, detail work

Drywall sanding

Dust-Free Pole Sander

Interchangeable Pads

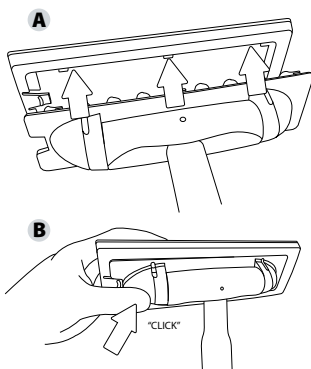

The DecoSander features interchangeable pads for precise sanding on different surfaces. With quick pad changes, a secure grip fastening system and the handy Click & Slide mechanism, you get effortless task transitions and enhanced control and safety.

Adjustable Shaft Length

With an extendable shaft of up to 1.8 metres, the DecoSander offers optimal reach for high walls and ceilings, while its compact 1.1-metre transport length ensures easy portability.

Stabilized Sanding Head

The robust construction of the stabilized sanding head prevents accidental tilting and flipping at edges, ensuring smooth and steady operation, even in difficult areas.
