

**MIRKA**

## New Mirka Iridium® SR

With tridimensional technology

The new Mirka Iridium® SR abrasive features excellent consistency and extremely long use life with its efficient silicon carbide grains. With uniformly placed grain material on a stable and robust backing, Mirka Iridium SR produces a class-leading, uniform cut and scratch pattern that is fast and easy to polish out. Molded onto the carrier material for a uniform surface, the triangular silicon carbide grains form new abrasive edges whenever they break down during the sanding process, prolonging the sharpness of the Mirka Iridium SR.

New premium abrasive.

For an optimal spot repair of a car engine hood use **Mirka Iridium SR** together with the Mirka AOS-B 130NV sander.

# Mirka Iridium® SR

Directed at the finest finishing stages of automotive refinishing and collision repair as well as vehicle and transport manufacturing, the **new Mirka Iridium SR** performs consistently on sanding clearcoat, top coat and lacquers as well as composites processing, for premium results. For unparalleled performance in spot repair work and finishing quality control, Mirka Iridium SR is best paired with Mirka's ergonomic cordless tools, the AOS-B and AROP-B.

## Mirka Iridium SR5

» 5 micron (m) / Grit 3000

## Mirka Iridium SR7

» 7 micron (m) / Grit 2500

### Features and benefits

- Excellent quality consistency
- Fast cut and long life
- Easy to polish out
- Silicon carbide grains and a stabile and robust backing results in improved performance

Technical specs	Mirka Iridium SR5	Mirka Iridium SR7
<b>Grain</b>	Silicon Carbide	Silicon Carbide
<b>Color</b>	Grey (dark green)	Purple
<b>Backing</b>	Film (3 mil)	Film (3 mil)
<b>Bonding</b>	Slurry	Slurry
<b>Grit range</b>	5 micron (eqv. to P3000)	7 micron (eqv. to P2500)
<b>Coating</b>	Close	Close
