About Interchange

The payment networks set interchange in a manner that balances the value and economics among all parties —retailers, financial institutions, and cardholders.

Interchange is set in response to dynamic and highly competitive market forces and strikes the right economic balance between participants in the payment network. Among other things, it varies by the type of retailer, cost of the sale, payment, product type, processing technology the retailer uses, and region or country.

American Express® Canada OptBlue Wholesale Discount Rate

The American Express OptBlue program is designed for small merchants, providing a simplified option to accept American Express Cards. In the OptBlue program, you pay a rate for accepting American Express Cards, which includes the American Express OptBlue Wholesale Discount Rate.

The OptBlue Wholesale Discount Rate is a fee assessed to payment processors on each Charge, by multiplying the face value of the Charge by the applicable Wholesale Discount Rate.

For more information, please visit:
