

MIRKA

45

Polarshine®

Heavy cutting power.
High gloss finish.

Save time and achieve that perfect deep gloss. Now it's possible with Polarshine 45. Mirka's professional coarse polishing compound is ideal for marine and industrial gelcoats, both in production and restoration processes. Easily remove scratches after sanding with P600 or remove heavy oxidation even without sanding. Polarshine 45 water-based and silicone-free compound restores colour and shine to faded surfaces. Thanks to the glossy finish, it can be used for one step polishing on white and light colours.

Polarshine. Inspired by nature, respectful of the environment.

POLISHING COMPOUND 45
