HURRICANE RESPONSE 101

12 CRITICAL STEPS TO TAKE BEFORE THE STORM

-
- ✔ **CONTACT US:** Connect with your emergency restoration partner to review your plan and discuss logistics, locations, and resources.
-
- ✔ **REFER TO YOUR EMERGENCY ACTION PLAN:** Include key contacts and details such as evacuation routes. Communicate plan with employees early, and ensure key personnel have contact info for your emergency restoration partner.
-
- ✔ **PROTECT YOURSELF AND EMPLOYEES:** Your safety is more important than property. In the chaos of worrying about your business, give yourself enough time to get out of harm's way. Encourage employees, residents, and tenants to take precautionary measures to protect themselves, loved ones, pets, and personal assets.
-
- ✔ **COMMUNICATE WITH SUPPLIERS, VENDORS, AND PARTNERS:** Give critical contact info and directions to temporary work sites.
-
- ✔ **DEVELOP AN EMERGENCY ACCESS LETTER:** This will ensure service providers can access your facility to begin work as soon as possible.
-
- ✔ **DETERMINE IF A TEMPORARY FACILITY IS NEEDED:** This can help limit business interruption after the storm.
-
- ✔ **IDENTIFY POWER REQUIREMENTS FOR BUILDINGS:** If you anticipate loss of power, call your emergency service partner immediately.
-
- ✔ **PROVIDE INSTRUCTIONS FOR SHUTTING OFF WATER AND GAS LINES:** Assign an employee to take care of this before the storm.
-
- ✔ **DETERMINE SECURITY NEEDS:** Camera monitoring, physical security, fencing, or boarding-up windows and doors can protect assets, people and property.
-
- ✔ **PREPARE YOUR PROPERTY:** Ensure emergency supplies are in place and fuel tanks are full, cover equipment, protect critical documents, safeguard data systems, and do what you can to secure your property.
-
- ✔ **UPDATE YOUR COMMUNITY:** Have an external communications plan in place.
-
- ✔ **TRACK THE WEATHER AND STAY ALERT:** Storms can move fast. Stay updated and stay safe.
-

In an emergency we are here to help,
