

How to get started with Drivewyze on your XRS device

Follow these steps the **first time only** when launching Drivewyze on XRS

After first launch, simply launch Drivewyze by tapping on the icon as part of your pre-trip

1 Open Device Setting

Open your device setting and navigate to **App and Notification** settings

2 Allow Drivewyze Permissions

Locate and select **Drivewyze** from the list of applications and select **permissions**

Select **Location** and choose the the option **Allow all the time**

Select **Phone** and **Allow**

Finally go to **Advanced** settings and enable **Allow Display over other apps**

3 You are now ready to drive

Setup is complete, Drivewyze now has the permissions it requires to run.

How Drivewyze PreClear Weigh Station Bypass Works

1 Drivewyze Bypass Sites

There are 900+ participating sites.

At these sites, you will receive **2-mile** and **1-mile heads up** alerts, indicated by a blue light & banner:

You will then receive **one of three** driving instructions:

Bypass the site

Pull in to the site

Instruction shown on electronic sign

2 Non-Drivewyze Sites

At sites not participating in the Drivewyze Program, you will receive the following notifications:

2-mile and **1-mile heads-up** alerts indicated as Non-Drivewyze.

You will then receive a driving instruction to **Follow Road Signs**.

3 Florida Ag Inspection Sites

If your fleet has opted into the Florida Ag bypass program, you may receive a **conditional bypass**.

Bypass unless hauling: refrigerated loads, agriculture, aquaculture, horticulture, or livestock.

4 Recall Last Driving Instruction

To show your most recent driving instruction, tap on the recall icon within the application.
