THE TECHNOLOGY YOU NEED TO KEEP YOUR BUSINESS MOVING

Drivewyze PreClear keeps your trucks moving with bypass opportunities at fixed weigh stations and mobile inspection sites. And the best news? It works on the devices you already have in-cab, eliminating the need for transponders and making set up incredibly simple.

Available on devices you trust:

PROVEN PERFORMANCE WITH INSIGHTS TO BACK IT UP

Do you want to understand the real cost of unplanned delays at weigh stations and inspection sites? With Drivewyze, it's easy to see what costs you're incurring and how much you could save with each bypass.

- **Maximize on-duty drive time** with more bypass opportunities that keep your drivers moving
- **Reduce operational costs** and cut down on idling, saving on fuel and emissions
- **Improve driver retention** and satisfaction with a service they love (and are more likely to stick around for.)

Here's what one fleet discovered about the impact of unnecessary pull-ins on their bottom line:

940
Pull-ins

28 hours
spent idling

134 gallons
of fuel used

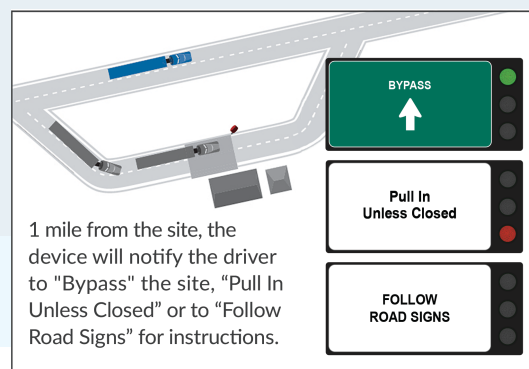

0.25 US tons
CO₂ emissions

Opportunity to save **\$2,899 per month**

How Drivewyze PreClear Works

When a driver is 2 miles and 1 mile away from a site, Drivewyze displays an audio & visual alert on the in-cab device.

Drivewyze®

North America's largest weigh station bypass service.
