

SUCCESS IN PRECISION

A successful season starts with Precision Planting®
and Monty's® high efficiency products

Precision
Planting®

It's all about efficiency & success!

Our goal is to make farmers more efficient and successful. How do we do that? We take the industry's leading, high-end planter equipment innovator, Precision Planting, and combine with Monty's highly efficient starter products for the most productive planting process in the industry!

Start with Precision Planting. Precision Planting uses a unique and innovative approach; retrofit the equipment you already own, to maximize its benefit to your farm. Their industry-leading equipment offers practical and effective precision ag technologies designed to improve your planting, liquid application, and harvest operations.

Finish with Monty's applied products. Monty's offers you high efficiency nutrient solutions – whether in-furrow starters, industry-leading humic-based soil conditioners, or foliar applied nutrient packages – you will see better root development, healthier plants, and ultimately higher yields!

Monty's unique products, Farmer First principles, and Precision Planting's industry-leading equipment, give you the most innovative, efficient, installed program for the best start and ultimately highest yield possible! Talk to your representative today!

“

"I use Monty's on my corn in row on the seed. I get better germination and more even seed emergence. Also better root growth and better root penetration. I have no mixing problems with anything."

PERRY GALLOWAY

~ SEE BACK PAGE FOR INFORMATION ABOUT OUR 2020 PLANTER EQUIPMENT PROGRAM ~

Precision Planting, Monty's products, and the Planter Equipment Program mean the finest planter equipment and high efficiency nutrient solutions... a better start and higher yields!

The road to precision planting & higher yields is as easy as 1-2-3

1. Select the ideal Precision Planting equipment for your planter including FurrowJet®, vApplyHD®, and Conceal®.

Visit www.precisionplanting.com for more product information.

2. Coordinate the installation of your Precision Planting purchase with a qualified equipment specialist, enabling you to plant right away.

3. Your Monty's rep will help you select the best products and programs for your crop.

The results? Even planting, healthier plants, higher yields... success you can see!

2021 Precision Planting and Monty's Rebate Program

The Monty's and Precision Planting Rebate Program combines Monty's high efficiency nutrient products with Precision Planting's industry-leading planting equipment, designed to get your crops off to a great start next season!

The program is easy! (1) Work with your Precision Planting representative to purchase and install Precision Planting equipment (FurrowJet, vApplyHD, or Conceal). (2) Work with your dealer or Monty's representative to purchase Monty's products. Purchase at least 4,100 gallons of Monty's starter (Premium Blend or 9-24-3) and at least 1,500 gallons of Monty's high-efficiency nutrients (any combination of Microhance, Nauxin, Agri-N, Agri-Sweet, Sulfur 15, Liquid Carbon, Calesco, or Surge XD²) to receive a combined rebate of up to 50¢ per gallon. You may be eligible for up to 3 years of rebates.¹

Example: A farmer buys 4,100 gallons of Monty's starter and 1,500 gallons of qualifying Monty's nutrient products for the next three years.

Year 1 – $(4,100 \times .30) + (1,500 \times .20) = \$1,530$ Rebate year one

Year 2 – $(4,100 \times .30) + (1,500 \times .20) = \$1,530$ Rebate year two

Year 3 – $(4,100 \times .30) + (1,500 \times .20) = \$1,530$ Rebate year three

That's more than \$4,500 in rebates!

¹ See rebate program for more details. ² Surge XD is available only in select states.
