

2022 APPLICATION EQUIPMENT INCENTIVE PROGRAM

FORCE 6.5G CORN INSECTICIDE & VDRIVE INSECTICIDE

Syngenta Crop Protection, LLC and Precision Planting[®] have teamed up to deliver an application equipment incentive program that offers qualified growers a discount off the total price of vDrive[®] Insecticide with qualified Force[®] 6.5G corn insecticide purchases.

Force 6.5G soil-applied insecticide is packaged in a 20% lighter bag, covers 175% more acres, and has 50% less dust than Force[®] 3G insecticide, which means less bags to handle and load and fewer stops to refill with the same superior corn rootworm control. This more concentrated formulation also means accurate placement of the granules in the furrow is critical.

VDRIVE

vDrive Insecticide is an electric-motor driven insecticide meter that provides accurate delivery across your entire speed range. It offers row-by-row control, accurate placement, and less maintenance than chain-driven systems.

FORCE 6.5G RATE IS 1.9 OZ/1000 FT ROW

		Oz/1000 ft																						
PLANTING SPEED	MPH	.75	1	1.5	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20
