Immune Support Protocol+

BASIC PROTOCOL

Foundational nutrients for innate and adaptive immune responses

Product Recommendations*	Clinical Objective	Morning	Afternoon	Evening	Bedtime
Immune Charge+® 100ml	Foundational support to promote immune defenses, production of immune cells, and barrier function	1 tsp			
Immune Charge+® Zinc Ionophore	Increases systemic zinc levels to promote optimal immune function	1 softgel			
Liposomal Glutathione	Helps fine-tune the innate immune response, shield immune cells from oxidation, and support a balanced inflammatory response	3 pumps			
Immune Charge+® Throat Spray*	Fast-acting immune support locally in the throat	3 sprays, as needed throughout the day*			

*Take all liposomal products on an empty stomach, if possible.
Immune Charge Throat Spray: Take as needed to provide additional support in high risk environments.

*Please note that patients may not require all supplements listed.
