Product highlights

The *Transamerica I-Share II Variable Annuity* offers no surrender charge schedule and is available exclusively through managed money platforms.

Contingent Deferred Sales Charges for details.	Transamerica Variable Annuity				
Product Highlights	Transamerica I-Share II Variable Annuity				
Issue Age	0-90 annuitant and/or owner				
Surrender Charge Schedule Based on years since each premium payment. For surrender charge-free withdrawal options see page 7.	No Contingent Deferred Sales Charges during the accumulation phase.				
Death Benefit Options Issue Ages/Mortality & Expense Risk Fee & Administrative Charge (M&E&A) M&E&A is an annual fee assessed daily and is a percentage of the subaccount Policy Value. See page 7 for more details.	Policy Value: Fee 0.20%, Issue age 0-90	Return of Premium*: Fee 0.30%, Issue age 0-85	Annual Step-Up*: Fee 0.60%, Issue age 0-75		
Transamerica Income Edge sM 1.2 Living benefit fee may increase. See page 3 for more details.	Fee: 1.45% Single Life, 1.55% Joint Life, Issue age 0-85 The fee is a percentage of the Withdrawal Base and will be deducted on a pro rata basis from the Select and Flexible Options at the end of each living benefit quarter in arrears. Once the Select and Flexible Investment Options are exhausted, no living benefit fee will be deducted.				
Transamerica Principal Optimizer SM Living benefit fee may increase. See page 3 for more details.	Fee 1.35%, Issue Age 0-85 The fee is a percentage of either the greater of the Withdrawal Base or Guaranteed Future Value and will be deducted on a pro rata basis from the Select and Flexible Options at the end of each living benefit quarter in arrears, and only deducted from the Stable Account if the other options are exhausted.				
Annual Service Charge ¹	Lesser of \$35 per policy year or 2% of the Policy Value				

^{*} Transamerica Principal OptimizerSM living benefit is not available with Return of Premium or Annual Step-Up death benefits in New York.

The withdrawal and growth percentages and living benefit fees along with required allocations, valuation frequency, and minimum benefit age (If applicable) listed within may change and may not be the most current. The most current information is disclosed in the applicable Rate Sheet Prospectus Supplement, which may be amended by us from time to time. Please contact our administrative office to determine whether the information above has been amended. You should not purchase this living benefit without first obtaining the applicable Rate Sheet Prospectus Supplement.

¹ The company has the right to change the annual service charge up to the maximum of \$50. It may be waived with net premiums paid or Policy Value of \$100,000 or more.

Transamerica Income Edge 1.2

An optional living benefit that is designed to provide a straightforward, flexible, and cost-efficient way to create income for life that will never be reduced.

Annual Fee ³ (Single Life or Joint Life)	1.45% Single Life, 1.55% Joint Life						

^{*} The guaranteed interest rate will be equal to the non-forfeiture rate declared each quarter. The Guaranteed Minimum Interest Rate will be equal to the non-forfeiture rate in effect for the quarter in which the policy is issued and will not change for the life of the policy.

¹ The withdrawal percentages and living benefit fees along with required allocations, valuation frequency, and minimum benefit age (if applicable) listed within may change and may not be the most current. The most current information is disclosed in the applicable Rate Sheet Prospectus Supplement, which may be amended by us from time to time. Please contact our administrative office to determine whether the information above has been amended. Your client should not purchase this living benefit without first obtaining the applicable Rate Sheet Prospectus Supplement.

² If the living benefits are structured as joint life, the withdrawal percentages are based on the younger of the spouses when withdrawals begin.

³ The maximum living benefit fee is 2.50%. The initial living benefit fee is deducted on each living benefit quarter in arrears, and is an annual percentage of the Withdrawal Base.

Transamerica Principal Optimizer

Offering protection for premiums and earnings, plus the opportunity for uncapped equity growth, *Transamerica Principal Optimizer*SM can help provide the confidence to remain invested no matter what happens in the markets.

^{*} The guaranteed interest rate will be equal to the non-forfeiture rate declared each quarter. The Guaranteed Minimum Interest Rate will be equal to the non-forfeiture rate in effect for the quarter in which the policy is issued and will not change for the life of the policy.

The withdrawal and protection level percentages and living benefit fees along with required allocations, value frequency and minimum benefit age listed within may change and may not be the most current. The most current information is disclosed in the applicable Rate Sheet Prospectus Supplement, which may be amended by us from time to time. Please contact our administrative office to determine whether the information above has been amended. You should not purchase this living benefit without first obtaining the applicable Rate Sheet Prospectus Supplement.

^{**} If the living benefit is structured as joint life, the withdrawal percentages are based on the younger of the annuitant or the annuitant's spouse when withdrawals begin.

- ¹ Calculated upon the greater of the Withdrawal Base or the Guaranteed Future Value. The living benefit fee is deducted each benefit quarter in arrears as a percentage of the greater of the Withdrawal Base or the Guaranteed Future Value. The fee will be deducted on a pro rata basis from the Select and Flexible Options at the end of each living benefit quarter. Once the Select and Flexible Investment Options are exhausted, no living benefit fee will be deducted. The fee can increase beginning the 1st living benefit anniversary upon an Optional Reset if an automatic Step-Up occurs but never be greater than 2.50%.
- ² Up to and including the living benefit anniversary on or following the oldest of the annuitant's or the annuitant's spouse's 85th birthday. A reset may be requested within 30 days following the living benefit anniversary. The living benefit waiting period will restart from the most recent living benefit anniversary. The Guaranteed Future Value will be reset to the Policy Value multiplied by the Protection Level Percentage, both as of the date of the reset election. This feature does not require the termination of the existing living benefit. The Protection Level Percentage may be decreased if there is a reset, but it will not be less than the minimum Protection Level Percentage. The optional reset will only impact the Guaranteed Minimum Accumulation Benefit and will not impact the Guaranteed Lifetime Withdrawal Benefit or any other values of the base policy. If the living benefit fee percentage increases beyond the living benefit fee percentage immediately prior to the living benefit anniversary or the Protection Level Percentage decreases as a result of the optional reset, as the policy owner you will have the right to revoke the reset within 30 days following the reset effective date. If you revoke an optional reset, you are still eligible for future optional resets. Changes as a result of the optional reset including any changes in the living benefit fee percentage and/or Protection Level Percentage will also be reversed as applicable.
- ³ Each waiting period will have a defined initial Protection Level Percentage (PLP) and a minimum Protection Level Percentage. The PLP is the amount of the future value of the account that is guaranteed. The minimum Protection Level Percentage is utilized with the optional living benefit reset feature. The Guaranteed Future Value is increased by a percentage of subsequent premium payments and reduced for withdrawals. Reductions to the Guaranteed Future Value are greater of pro rata or dollar for dollar. The Guaranteed Future Value Date will be equal to the living benefit date, plus the waiting period chosen, unless optional reset is elected, at which time it will reset based upon the waiting period elected at issue.

Transamerica Variable Annuities: Investment Options

We understand you need investment options that can help keep your retirement goals intact in today's marketplace. Our options seek to limit downside risk and volatility in an effort to protect you from extreme losses and help give you the confidence to stay invested through the market's inevitable ups and downs. At the same time, our options seek to provide enough growth potential to help you pursue the retirement lifestyle you've planned for.

We've assembled investment options from some of the industry's well-known managers to ensure you have a wide array of choices. Everyone's circumstances are unique. Please work with your financial professional to determine if these investment options are appropriate for you.

Investment options are subject to investment risk, including the possible loss of principal.

^{*} The Stable Account is a fixed account option that is only available if you elect *Transamerica Principal Optimizer*SM and *Transamerica Income Edge*SM 1.2.

Not all investment options are available in all states. All TA investment options invest in Transamerica Series Trust Service Class shares (Investment Manager: Transamerica Asset Management, Inc). Please see prospectus for details. Investment option names may vary from their corresponding underlying portfolio names. Please see the contract prospectus for underlying portfolio names.

You could lose money by investing in the Transamerica BlackRock Government Money Market. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it cannot guarantee it will do so. The Fund may impose a fee upon sale of your shares or may temporarily suspend your ability to sell shares if the Fund's liquidity falls below required minimums because of market conditions or other factors. An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. The Fund's sponsor has no legal obligation to provide financial support to the Fund, and you should not expect that the sponsor will provide financial support to the Fund at any time.

Important information

All features may not be available on all products; check specific product for details. Variable annuities are long-term financial vehicles designed for retirement purposes and contain underlying investment options that are subject to market fluctuation, investment risk, and possible loss of principal.

Annuitization options

Standard Options: Income for a specified period; life income; income of a specified amount; joint, and survivor annuity

Automatic rebalancing

Monthly, Quarterly, Semi-Annually, and Annually. Quarterly rebalancing is required with the *Transamerica Principal Optimizer*sM and *Transamerica Income Edge*sM 1.2 living benefit.

Dollar cost averaging

- Traditional: Monthly (Minimum 6/Maximum 24) or Quarterly (Minimum 4/Maximum 8). Dollar cost averaging is not available with the *Transamerica Principal Optimizer*SM and *Transamerica Income Edge*SM 1.2 living benefit.
- \$500 minimum transfer

Minimum initial premiums

- Nonqualified: \$5,000 initial
- Qualified: \$1,000 initial

Subsequent premiums

- Minimum: \$50
- Maximum (per policy year after the 1st policy anniversary)
 - Nonqualified: \$25,000
- Qualified: Lesser of \$60,000 or IRS contribution limit
- Company reserves the right to limit or refuse subsequent premium payments

Cumulative maximum premiums

\$1,000,000; \$500,000 if over age 80 (without prior approval)

Withdrawal options

Withdrawals of taxable amounts are subject to ordinary income tax and may be subject to a 10% additional federal tax if withdrawn before age 59½.

Systematic withdrawals

Monthly, quarterly, semiannually, and annually (\$50 minimum)

Transford

- 12 free transfers per year (\$10 fee per transfer thereafter; this does not include automatic rebalancing)
- Transfers to and from the Transamerica Principal OptimizerSM and Transamerica Income EdgeSM 1.2 Stable Account are not permitted.

Death benefit options

- Policy Value = Policy value as of the date all paperwork is received in good order (Due Proof of Death)
- Return of Premium = Premium payments less adjusted partial withdrawals
- Annual Step-Up* = Highest Policy Value on either the issue date or any
 policy anniversary, plus premiums, and less adjusted partial withdrawals
 that occur after the anniversary with the highest value, and although
 Step-Ups stop at age 81, the fee will continue to be charged.

A withdrawal adjustment will apply for the annual Step-Up and return of premium death benefits. The adjustment will reduce the death benefit amount in direct proportion to the percentage the Policy Value was reduced, assuming the Policy Value is less than the death benefit value. This can increase the amount deducted from the death benefit.

Transamerica Principal OptimizerSM and Transamerica Income EdgeSM 1.2

Please see current Rate Sheet Prospectus Supplement for current withdrawal rates, Protection Level Percentages (if applicable), valuation frequency, minimum benefit age, required allocation, and living benefit fees. These living benefits provide guaranteed payments for life should

the annuity Policy Value fall to zero. If an excess withdrawal causes the Policy Value to reach zero, the living benefit and policy will terminate. The maximum percentage that can be withdrawn according to the living benefit each year is based on the annuitant's age when withdrawals are first made, however, the withdrawal percentage may increase upon automatic Step-Up.

Guaranteed Minimum Withdrawal Benefit:

The Guaranteed Minimum Withdrawal Benefit portion of a living benefit guarantees that withdrawals up to the living benefit withdrawal amount can be taken each year until the later of the annuitant's or the annuitant's spouse's death if the joint option is elected.

Withdrawal Base. The Withdrawal Base is equal to the Policy Value when the living benefit is added, plus any additional premiums, and less any adjustments for excess withdrawals after the living benefit is added. On each living benefit anniversary, the Withdrawal Base will equal the current Withdrawal Base, the Policy Value on the living benefit anniversary or the highest Policy Value in the previous living benefit year based on valuation frequency as long as no excess withdrawals are taken. The Withdrawal Base does not establish or guarantee Policy Value, surrender value, minimum death benefit, or return for an investment option. You must wait until the living benefit year after you attain the Minimum Benefit Age of 59 to begin withdrawals permitted under the living benefit. If the living benefit is purchased prior to Minimum Benefit Age, the living benefit fee will still apply. Withdrawals reduce the Policy Value, death benefits, and other values. On the maximum annuity commencement date, the living benefit terminates. By annuitizing the policy, on the maximum annuity commencement date, you will have the option to receive lifetime payments that are no less than the withdrawals allowed by the living benefit. Should the annuity's Policy Value fall to zero, you will receive payments that are no greater than the living benefit withdrawal amount prior to the Policy Value dropping to zero. Withdrawals in excess of the amounts allowed under the living benefits will result in a decrease of the dollar amount of future withdrawals available under the living benefits. Annuitization must generally occur by the annuitant's age 99. See living benefit and prospectus for details.

Automatic Step-Up. On each living benefit anniversary, an automatic Step-Up will occur if the Policy Value or the highest Policy Value in the previous living benefit year based on the valuation frequency is greater than the current Withdrawal Base as long as no excess withdrawals have been taken. The withdrawal percentage will reset upon the automatic Step-Up if new age band is reached. The living benefit fee can increase upon the automatic Step-Up, however, your client has the option to reject the automatic Step-Up within 30 days following the living benefit anniversary date.

Rebalancing. While this living benefit is effective, quarterly rebalancing is required and will take place at the end of each benefit quarter on the same date your client's benefit fee is deducted. We will automatically transfer amounts among subaccounts according to the most recent rebalancing allocation instructions on file that comply with the required allocations for rebalancing. The Stable Account is not included in the quarterly rebalancing process.

Excess withdrawals. Excess withdrawals beyond the living benefit withdrawal amount will reduce your client's Withdrawal Base by the greater of dollar-for-dollar or pro rata. Partial withdrawals are first taken pro rata across the Select and Flexible investment options and will only be withdrawn from the Stable Account if the other subaccount options are exhausted. If an excess withdrawal causes the Policy Value to reach zero, the living benefit and policy will terminate.

Removing or adding living benefit The living benefits can be dropped within 30 days of every fifth living benefit anniversary and can be added to a policy at any time based on age restrictions. Only one living benefit is available on a policy at a time.

^{*} Not available on policies issued with *Transamerica Principal Optimizer*SM in New York.

Important information (cont.)

Transamerica Principal OptimizerSM only

In addition to the guaranteed payments for life, a Guaranteed Minimum Accumulation Benefit that guarantees the Policy Value will be at least as high as the Guaranteed Future Value on the Guaranteed Future Value Date.

Protection Level Percentage. Each Waiting Period will have a defined initial Protection Level Percentage (PLP) and a minimum Protection Level Percentage. The PLP is the amount of the future value of the account that is guaranteed. The minimum Protection Level Percentage is utilized upon the Optional Living benefit Reset feature, which is the option to reset the Guaranteed Future Value and Guaranteed Future Value date, and restart the waiting period, on each living benefit anniversary.

Guaranteed Future Value Date. The date upon which your Policy Value is guaranteed to be at least as great as the Guaranteed Future Value. This date will be equal to the living benefit date plus the waiting period chosen, unless an optional reset is elected, at which time it would be reset based upon the waiting period duration elected at issue. On the Guaranteed Future Value Date, an amount equal to the excess, if any, of the Guaranteed Future Value over the Policy Value will be added to the Policy Value.

Guaranteed Future Value. On the living benefit date, the Guaranteed Future Value is equal to the Policy Value multiplied by the protection level percentage. The Guaranteed Future Value is increased by a percentage of subsequent premium payments and reduced for withdrawals. Reductions to the Guaranteed Future Value are the greater of pro rata or dollar for dollar value used to calculate the living benefit fee and Guaranteed Minimum Accumulation Benefit. The Guaranteed Future Value cannot be withdrawn in a lump sum, annuitized, or payable as a death benefit.

Protection Level Percentage

Each waiting period will have a defined initial Protection Level Percentage (PLP) and a Minimum Protection Level Percentage. The PLP is the amount of the future value of the account that is guaranteed. The Minimum Protection Level Percentage is utilized upon the Optional Living Benefit Reset feature, which is the option to reset the Guaranteed Future Value and Guaranteed Future Value Date, and restart the waiting period, on each living benefit anniversary.

Investment options

If you elect an optional living benefit, there are certain underlying investment options offered in the policy that use a volatility control strategy. If you elect one of the optional living benefits, Transamerica requires the Policy Value to be allocated in a manner described in the contract, which may include a volatility control strategy. In periods of high market volatility, volatility control strategies could limit your participation in market gains; this may conflict with your investment objectives by limiting the ability to maximize potential growth of your Policy Value and, in turn, the value of any guaranteed benefit that is tied to investment performance. Volatility control strategies are intended to help limit overall volatility and reduce the effects of significant market downturns during periods of high market volatility, providing policy owners with the opportunity for smoother performance and better risk-adjusted returns. You pay an additional fee for the living benefits which, in part, pays for protecting the living benefit base from investment losses. Since the living benefit base does not decrease as a result of investment losses, volatility control strategies might not provide meaningful additional benefit to you.

If you determine that underlying funds with volatility control strategies are not consistent with your investment objectives, other investment options

are available under the living benefits that do not invest in funds that utilize volatility control strategies.

Dollar cost averaging

Results in the purchase of more units when the unit value is low, and fewer units when the unit value is high. However, there is no guarantee that the dollar cost averaging program will result in higher Policy Values or will otherwise be successful. Dollar cost averaging requires regular investing regardless of fluctuating prices and does not guarantee profits or prevent losses in a declining market. Before you elect this option, you should consider your financial ability to continue transfers through periods of both high and low price levels. Amounts allocated to the subaccounts of the separate account are subject to investment risk, including possible loss of principal. Dollar cost averaging is not available with the *Transamerica Income Edge*SM 1.2 and *Transamerica Principal Optimizer*SM living benefit.

Compensation

The registered representative receives a commission from the insurance company for a sale of this annuity. The registered representative does not receive compensation for investment advice. While you do not directly pay the commission, certain fees, including surrender charges, are higher than those charged for a feebased annuity to offset commissions paid by Transamerica Financial Life Insurance Company. However, surrender charges are not applied to your annuity if you hold the annuity contract beyond the surrender charge period.

You should consider a variable annuity's investment objectives, risks, charges, and expenses carefully before investing. Go to transamerica.com for prospectuses containing this and other information. Please read carefully.

All guarantees, including optional benefits, are based on the claims-paying ability of the issuing insurance company.

Financial institutions that sell our products may have their own guidelines to determine the appropriateness of our variable annuity policies and/or living benefits. Some financial institutions may have specific issue ages for our variable annuity policies and may not have all living and death benefits available.

Same sex couples have the right to marry in all states. The parties to each marriage that is valid under the law of any state will each be treated as a spouse as defined in this policy. Individuals in other arrangements, such as civil unions, registered domestic partnerships, or other similar arrangements, that are treated as spouses under the applicable state law, will each be treated as a spouse as defined in this policy for state law purposes. However, individuals in other arrangements, such as civil unions, registered domestic partnerships, or other similar arrangements, that are not recognized as marriage under the relevant state law, will not be treated as married or as spouses as defined in this policy for federal tax purposes. Therefore, exercise of the spousal continuation provisions of this policy or any living benefits by individuals who do not meet the definition of "spouse" may have adverse tax consequences and/or may not be permissible. **Please consult a tax professional for more information on this subject.**

Living and death benefits are referred to as riders in the contract.

All policies, living benefits, and forms may vary by state, and may not be available in all states. FPVA10NY-R1019, NIC12 RGMD80513(NY), NIC12 RGMD50513(NY), FRGL22NY-R0319(IS), FRGL22NY-R0319(IJ), FRGL16NY-0318(IS), FRGL16NY-0318(IJ)
