PRODUCT RATE/UNDERWRITING GUIDE

TRANSAMERICA®

**NO ONE CAN PREDICT THE FUTURE,
BUT WE CAN CERTAINLY PREPARE
FOR IT.**

Today's clients want fast and easy options to protect their families from unexpected financial burdens, especially final expenses. Transamerica's *Final Expense Solutions Portfolio* offers a guaranteed death benefit and level premium whole life insurance from \$1,000 to \$50,000 for people of varying health levels and lifestyles.

Fast and simplified underwriting

Help clients secure a whole life policy from a highly rated carrier with no exams or labs so their family can cover burial and other end-of-life expenses. With the electronic application, your clients have the potential for same-day approval (dependent on MRAS email notification).

Guaranteed level premiums

Premiums remain level and never change regardless of your client's age or health. Retirees on a fixed budget have the added convenience to pay with their Social Security benefits through Social Security Direct Express®.

Permanent lifetime protection

Clients between the ages of 0 to 85 can expect a permanent death benefit that is guaranteed to never change regardless of their health. The Accelerated Death Benefit Rider with Nursing Home Benefit, Accidental Death Benefit Rider, and Children/Grandchildren Benefit Rider provide additional protection in one policy.

Transamerica relies upon the application and the answers to the medical questions to determine the product the proposed insured may qualify for. While the products are designed for quick issue with limited underwriting, the products are not designed or priced to accept risks that have been previously underwritten by a Transamerica insurance company and determined to be uninsurable (this includes being issued an EZ acceptance policy in our TAN line of business for any reason). When we receive an application on a proposed insured in which the proposed insured has been declined for another life product with any Transamerica insurance company within the last 24 months, the Solutions application will be declined.

- No more than nine covered children/grandchildren may be covered under this rider.
- The minimum face amount is \$1,000.
- The maximum face amount is equal to the minimum of the base policy face amount or \$5,000 per child/grandchild.
- Child/Grandchild cannot have more than \$5,000 across all Transamerica Final Expense Child/Grandchild riders.
- The face amount has to be the same for all children/grandchildren covered under this rider.
- The rider terminates on the rider anniversary following the children/grandchildren's 25th birthday.
- This rider may be converted to a new policy of permanent insurance we make available at time of conversion.
 - Ages 0 (15 days)-17 juvenile standard
 - Ages 18-25 standard nontobacco
- The children/grandchildren must be insured for two years under the rider to convert.

¹ Accelerated death benefits will be available when the insured has been diagnosed with a qualifying event, as described in the rider, while the policy and the rider are in force. Benefits advanced under this rider may be subject to taxation. Limitations and exclusions apply. Refer to the rider for complete details.

ACCELERATED DEATH BENEFIT RIDERS OVERVIEW

Transamerica's Accelerated Death Benefit Rider (ADBR) provides an accelerated death benefit that is paid instead of the cash value or death benefit in an insured's policy. The ADBR can be used to help pay for medical or nursing home expenses resulting from a medical condition from an injury or illness as determined by a physician.

ACCELERATED DEATH BENEFIT RIDER WITH NURSING HOME BENEFIT (NHB)¹ (NOT AVAILABLE IN CA, FL, NY)

The insured is required to be continuously confined in an eligible nursing home for 90 days and have a physician certify that he or she will continuously remain there until death.

Please note — Confinement to an eligible institution must be the result of:

- An accident that occurs on or after the effective date of the rider
- A specifically diagnosed illness that first manifests itself more than 30 days following the effective date of the rider

The NHB is not available if the applicant needs assistance in the activities of daily living at the time of application or two years prior to the application.

ACCELERATED DEATH BENEFIT RIDER (ADBR) - FLORIDA ONLY

This rider is available when the insured can reasonably expect death within 12 months of receipt of physician's statement.

TERMINAL ILLNESS ACCELERATED DEATH BENEFIT RIDER (TIR) - CALIFORNIA ONLY

The insured can accelerate up to 100% of the face amount, less an interest discount, less any loans, less any administrative charge, less any premiums that would be due in the next year, if death is expected within 12 months of receipt of a physician's statement.

Transamerica's ADBRs require proof of the insured's qualifying event while the policy and rider are in force. This proof shall include a completed request and a physician's statement. We may request additional medical information from the physician who submits the statement.

HOW THE BENEFIT AMOUNT IS DETERMINED

¹ Not available in Florida

CALCULATING A RATE

MODE OF PAYMENT	POLICY FEE (face amounts less than \$5,000)	POLICY FEE (face amounts \$5,000+)	MODAL FACTOR
Annual	\$60.00	\$42.00	1.00
Semiannual	N/A	N/A	0.51
Quarterly	N/A	N/A	0.2575
EFT (monthly)	N/A	N/A	0.086

EXAMPLE:

Male, age 55, face amount \$15,000 (15 units), preferred nontobacco, *Immediate Solution*

1. Take the annual rate per \$1,000 (unit) from rate table **\$37.38**
2. Multiply by the number of units $\$37.38 \times 15 = \mathbf{\$560.70}$
3. Add policy fee **\$42.00**
4. Add the sums of steps 2 and 3 for total annual cost $\$560.70 + \$42.00 = \mathbf{\$602.70}$
5. Multiply by modal factor and round to nearest cent $\$602.70 \times 0.086 = \mathbf{\$51.83 \text{ per month}}$

To add optional Accidental Death Benefit Rider (ADR)

- Please note: The ADR amount must equal the corresponding policy face amount. Thus, in our example above, the available rider amount would be \$15,000 (15 units).
1. Take the annual rate per unit (\$1,000) from ADR rate table on page 7 **\$2.95**
 2. Multiply by number of units $\$2.95 \times 15 = \mathbf{\$44.25}$
 3. Multiply by modal factor and round to nearest cent $\$44.25 \times 0.086 = \mathbf{\$3.81}$
 4. Add the monthly ADR amount to the premium calculated in step five above $\$3.81 + \$51.83 = \mathbf{\$55.64}$

To add the optional Children's and Grandchildren's Benefit Rider (CGR)

- For this example, we will be adding \$5,000 (5 units) of coverage for four children/grandchildren to the policy.
1. Multiply the child/grandchild rider annual rate of \$2.00 by the number of units $\$2.00 \times 5 = \mathbf{\$10.00}$
 2. Multiply by modal factor and round to nearest cent $\$10.00 \times 0.086 = \mathbf{\$0.86}$
 3. Multiply by the number of children/grandchildren $\$0.86 \times 4 = \mathbf{\$3.44}$
 4. Add the modal amount for child/grandchild rider to the amount in step four above $\$3.44 + \$55.64 = \mathbf{\$59.08 \text{ (per month)}}$

HOW TO QUOTE RISK CLASSES

The cascading application will help you determine what risk class and what product may be quoted for your clients.

If weight exceeds the **maximum weight** for the Graded product, no coverage will be available.
