

# Coalition Cyber Insurance

## Most comprehensive cyber protection a small business can have

As small and midsize businesses become increasingly dependent on services and applications connected to the internet, they also become a larger target for cybercriminals looking to exploit vulnerabilities in their systems. Backed with the financial security of Swiss Re Corporate Solutions, Lloyd's of London, and Argo Group (A+, A, and A- ratings, respectively, by A.M. Best), Coalition's insurance products provide comprehensive cyber protection along with a free proactive cybersecurity platform that monitors risks.

### Cybersecurity

- Free services such as Cyber Risk Assessment to prevent cyber incidents before they occur
- 24/7 security monitoring
- Automated security alerts
- Employee training and access to security experts

### Cyber Insurance

- Up to \$15M of insurance coverage
- Admitted product available in 41 states and the District of Columbia
- Protection against financial, tangible, and intangible damage
- Security for your network as well as business

## Coverages

Hackers are clever, breaches are common, and accidents happen. Here are some of our all-inclusive coverages

### 3rd Party Coverages
