for those who say business credit without a pg is not possible, these are just a "few" of my cards!! this does not include what I am waiting on to be shipped, nor what I have for my other business as well!!

so it can be done, but yes you will have to eventually do a PG some where down the line. but a good majority, if you follow Ty Crandall program, you'll get what you need!!

Got a 150k line of credit thru RTS financial services for my trucking company!! Plus a sign and drive contract for tractors and trailers as needed because I am going thru their factoring services!!

I also have their fleet fuel card 10k per week per truck!! This has been for a year for fuel card!!

Now we can expand and fast!!

ALL WITH NO PERSONAL GUARANTEE

It's **NOT** Easy!!!

Josh Elledge, Orlando FL

*“One thing that’s beautiful about Credit Suite is that you start with **baby steps**. The first thing that we did is get a couple of revolving credit lines and store credit, then we graduated to gas cards. Then we ended up getting a very nice line of credit at Amazon. And then we worked our way up to getting a **very, very nice SBA loan**. Thanks to Credit Suite, we were able to really get our business finances in order from a “what looks good” to potential lenders and potential creditors, and we became **very attractive to lenders**. The best options are always available to those who have their credit game locked down, and that’s what the Credit Suite platform allows you to do. We’ve been able to make smart investments in staffing, marketing systems, sales systems, product development, all these things before Credit Suite we really couldn’t do. I just **don’t have to stress as much** because we’ve got money in the bank to take advantage of opportunities. I’m not as stressed anymore. I can keep a bank account that has plenty of cushion in there. And that cushion just honestly, it **makes me a better dad**. It **makes me a better husband** because I’m not stressing out.”*
