

QUICK START

Launch your Dash Mobile app experience the right way.

Find and Replace

1. Search for “Dash Mobile” or “Travel and Transport” in your app store
2. Delete your old travel app as you won’t be needing it anymore
3. Once Dash Mobile is downloaded, login or register by completing one of the following:

Enter Your Username And Password

Username is often the email address on file with Travel and Transport – the one where you receive travel invoices and upcoming trip notifications.

First Time User Registration

Click the green “Register” button. Complete the form in the app. You will need to provide a Travel and Transport record locator (PNR) to complete registration. This can easily be found in your e-Invoice and/or the upcoming trip notification emails you get from us.

Dash Portal Connection

If your company has implemented Dash Portal (and why wouldn’t you) you can reset your password there to activate Dash Mobile also. Once the app is downloaded, simply click “Reset Password” then enter your employee email.

We All Forget Things

If you cannot remember your password, click “Reset Password.” Enter your email address. An email will be sent to the account on file with Travel and Transport. If you do not receive an email, contact dash@travelandtransport.com or our Support Desk at 1.800.341.6184, M-F 9am-5pm CST. No need to be embarrassed.

Support is a Quick Call Away

Need additional help? Email dash@travelandtransport.com or contact our Support Desk at 1.800.341.6184, M-F 9am-5pm CST.
