THE CHALLENGE

With the Atlas II Expansion of the Discovery Business Campus in Tempe, Arizona, parking needs resulted in the construction of this parking deck. Nawkaw got to work staining elements of this structure with Naw-Tone, resulting in a stunning neutral tone and black-matte-accentuated appearance.

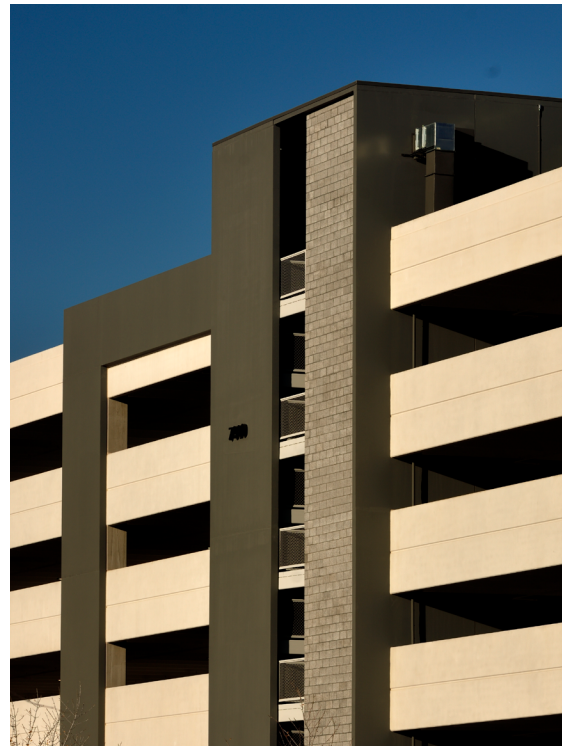

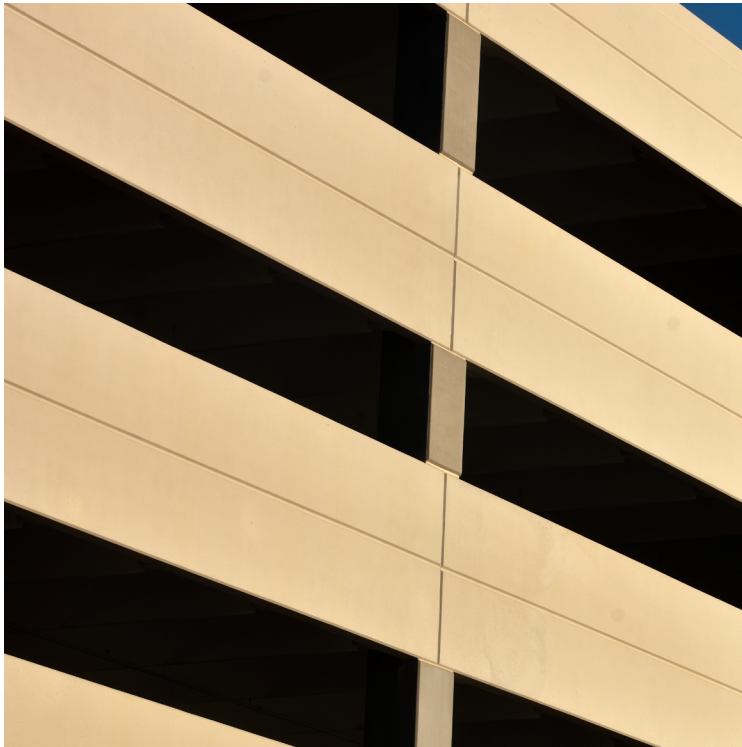

THE SOLUTION

Breaking ground in 2012, the Discovery Business Campus slowly began growing and expanding, promising a 136-acre mixed-use office park upon completion, with construction to roll out in stages. A few years later, the campus expanded with Atlas Phase II. With the addition of several more buildings, more infrastructure and parking spots were required, with additions needing to match the pre-existing aesthetic of the campus.

Nawkaw got to work staining elements of this parking structure with NawTone, creating a robust neutral tone for most of the structure, with a few black matte features added for extra flare. The final product blends seamlessly into the design of the pre-existing campus, which is now home to companies like JP Morgan, Chase, Shutterfly, Northern Trust, and others!
