# Classeq. Supporting You and Your Customers with the Power of Simple.

Our entire range is designed and made in Britain. Each machine is rigorously tested and robust in every way, built to withstand the pressures of a busy kitchen or bar.

As a Classeq Partner we're committed to supporting you from day one and throughout the life of your customer's machine.

Simple. Robust.  
**CLASSEQ**

## **Our entire range is defined by its simplicity.**

Offering all the features your customers need, the Classeq range is easy to specify and install, and robust enough to meet the demands of any busy kitchen or bar.

Our streamlined range of Undercounter and Pass Through machines are simple to use, simple to clean and simple to maintain.

C400

C500

Pass Through

# Simple Choice. Meet the right machine for your customers.

Warewashers are hard working machines essential to the smooth running of any kitchen or bar. When you specify a new machine you want total confidence it's going to be reliable with excellent wash results.

#### **Classeq delivers that confidence.**

Made in Britain, our range of Undercounter and Pass Through machines are designed with simplicity at their core while still being packed full of essential features and equipment.

Building upwards from an excellent product range, partnering with Classeq offers even more:

- Next working day delivery\* with optional installation.
- Readily available spare parts.
- Free engineer training.
- Assigned regional Account Manager offering support with sales, site surveys, customer training and more.
- Access to high-quality sales and marketing materials.
- Nationwide team of directly employed service technicians.

*\*Next working day delivery is standard across the range, however dispatch and delivery times may vary at peak times. Lead times for Cornwall, Northern Ireland, Republic of Ireland and Scotland may be longer.*

# Meet the new C400 & C500

Innovation; with the Power of Simple.

From the inside out the new Classeq Undercounter range combine maximum efficiency, pure lines and the cleaning power to shine bright in the busiest kitchens and bars.

## Simple choice.

One model level with all the features you need. Just choose the size, power and optional integrated water softener.

## Simple set up.

Commissioned on install as a glass or dishwasher in minutes.

## Simple use.

Press on. Press wash. Watch the display for notifications and troubleshooting.

## Simple cleaning.

Simple click in, click out wash arms, double filtration system, and moulded basket rails all aid simple cleaning.

## Simple app.

New bluetooth app for operators and service technicians. Access user guides, machine settings, monitor performance data and service information.

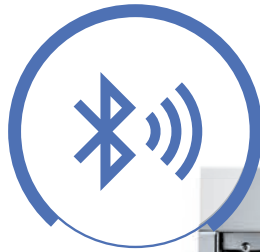

## Simple servicing.

The repositioning of key parts make servicing and maintenance quicker. Reducing maintenance costs throughout the life of the machine.

Scan to download the Classeq App for performance insights and useful guides.

Option for  
an integral  
water softener

One model. Two sizes. Set up  
on install as a glass or dishwasher.

information.

### Standard features across the range –

-  Colour coded display
-  Reduced rinse water consumption
-  Energy saving standby mode
-  Drain pump, rinse booster pump, detergent and rinse aid pumps
-  Double skinned door and cabinet to reduce noise and limit heat loss
-  Hygiene and service reminders
-  Deep clean mode and refresh cycle
-  Optional audible alarm
-  WRAS Compliant - Type AB air gap
-  Three power options:  
13A, 30A Single Phase and  
13A Three Phase

# Meet the Classeq Pass Through.

Perfect for higher volume sites.

When volumes increase it's important to keep things simple. A Pass Through or 'Hood Type' machine reduces the pressure on your customer's kitchen team, allowing baskets to pass through the machine at a faster rate than undercounter machines.

# Pass Through

## **Simple work.**

Pass Through dishwashers are capable of cleaning up to 720 plates every hour. Making them the perfect solution for a busy kitchen.

The P500 is available in three versions defined by your customer's wash volumes: Everyday, Intermediate and Intensive Use.

## **Simple configuration.**

Pass Through machines can be configured for straight-through or a corner locations with various table options available.

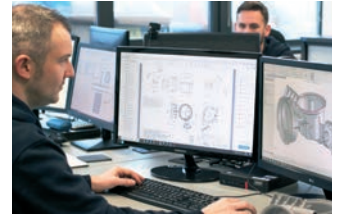

## **Simple plus.**

All models come with a built-in drain pump and rinse booster pump. A chemical pump and integrated water softener are available as options.

- 18 plates (10") per rack.

# Why become a Classeq Partner?

Well that's simple.

## The Power of Simple

You may have noticed the words 'Simple and Robust' sit proudly over our logo. This isn't just a strapline, it's been part of our ethos since day one, it's our guiding principle.

We embrace and harness 'The Power of Simple' in everything we do. It's part of every product development process and every machine that leaves our Staffordshire factory.

This creates and shapes success, it's not accidental, simple works.

This philosophy isn't about stripping away features, it's about honing in on what truly matters. It's a process for creating efficiency, reliability, and user-friendliness.

Our journey toward simplification didn't start with creating products; it was about enhancing experiences and ensuring that every interaction with our machines is impactful.

The new Undercounter range takes that simple and robust ethos another step forward. Our new range of undercounter machines are our best ever – simple and robust in every way.

## Well Established

Founded in 1977, we became part of the Winterhalter Group in 2004. We've spent 47 years developing cost effective, simple, and robust glass and dishwashing equipment.

And we continue to innovate today, with the launch of our new Undercounter range in 2024 and further product developments planned for 2025.

We're warewashing specialists. Every team member across the group is dedicated to providing our customers with the best glass and dishwashing solutions.

# Our partners make us stronger.

We sell our machines through partnerships with Distributors, Catering Equipment Suppliers and Kitchen Design Houses.

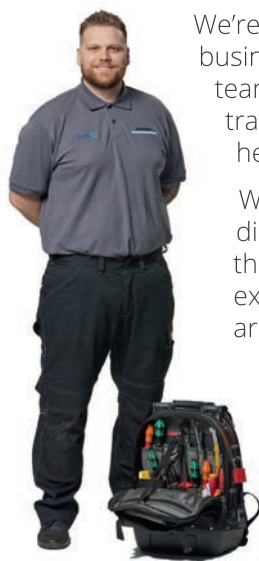

You're a huge part of our success, your relationships, expertise and knowledge play an essential role in getting our machines in kitchens and bars. We need you and we're always here to help.

## **Nationwide Service Team**

We work with a wide range of partners from service and engineering based organisations to online retailers, we know every partner we work with offers something different to their customers.

We're here to support you whatever your business model, if you have your own team of technicians we offer essential training and advice, if not our team are here to help.

We have a nationwide team of directly employed service technicians that are all highly trained and work exclusively on warewashers, our team are dedicated to maintaining, servicing and repairing Classeq and Winterhalter machines.

## **We design and build in Britain.**

Our entire range is designed and made in Britain, all machines and spare parts are shipped out directly from our facility in Staffordshire heading for destinations across the country and worldwide.

Our local manufacturing base allows us to further support our UK partners, all engineer training is delivered either at or online from the factory, our trainers have direct links with the R&D and production teams.

Your feedback fuels our research and product development, many of the innovations included in our recently launched undercounter range were a direct result of feedback from UK distributors and hospitality operators.

You're always welcome to visit to see our products in action and understand more about our R&D, testing and production processes.

# Experience the Power of Simple supporting you and your customers.

Our sales and business development team is dedicated to supporting you and your customers.
