

Warewashing site surveys for schools.

classeq.co.uk

Holidays are the ideal time to upgrade warewashing equipment in schools, colleges and universities. Plan ahead with a Classeq site survey to ensure you get the perfect fit.

Classeq works with a network of distributors who supply the education sector.

We work with them to carry out warewashing site surveys in educational settings, ensuring you gain the knowledge and experience of both Classeq as manufacturer and your preferred distribution partner.

**Delivering
A-Grade
results.**

The simple choice.

Our P500 Pass Through range is the simple choice for school boards, heads, or bursars.

Enabling the kitchen to be in good order to feed young minds in the new term.

What we review.

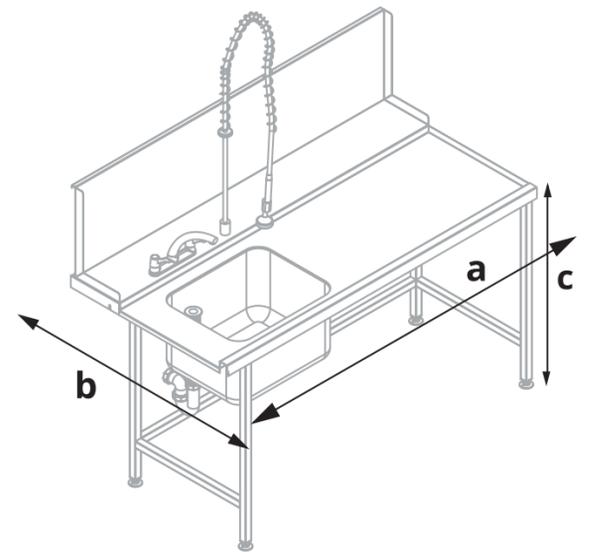

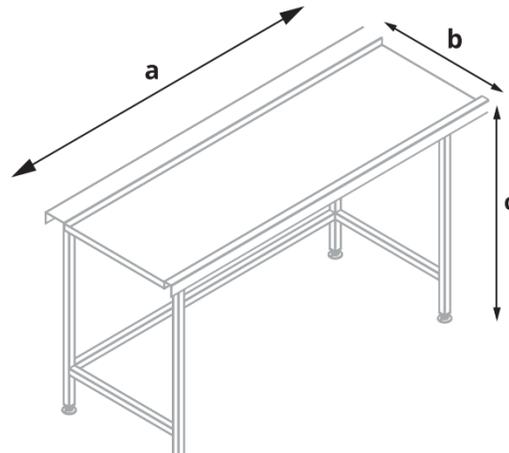

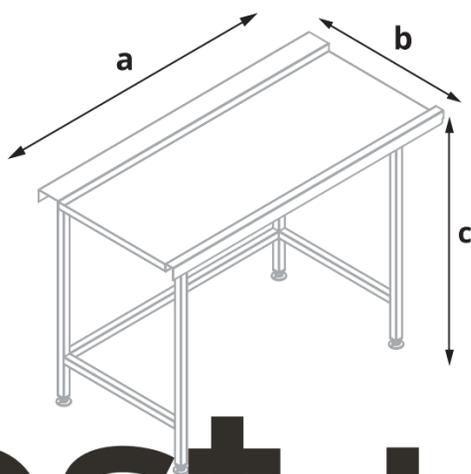

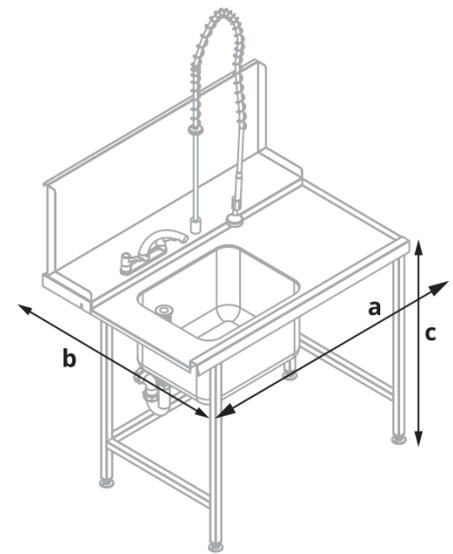

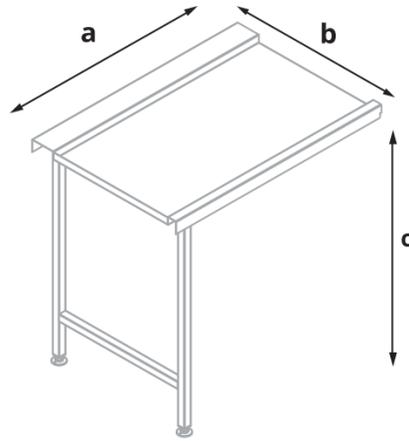

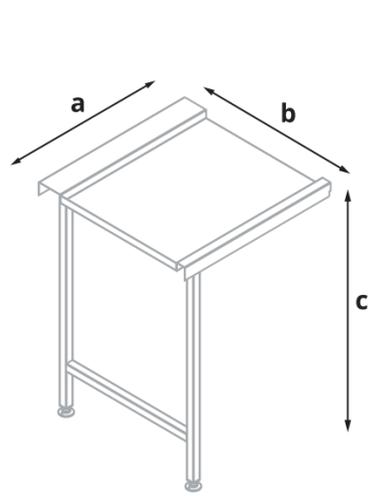

Wash Volumes.

It's vital that we make sure the right machine is recommended for every individual environment.

Wash area.

A woman in a white uniform and gloves is working in a kitchen, handling stacks of white plates. The background is blurred, showing a busy kitchen environment.

We'll help you plan
the most efficient
warewashing space.

Best use of tabling.

Our Pass Through machines can be configured for straight through or corner locations. We also support with bespoke requirements.

Available  Power.

We'll check your available power options and make sure it's sufficient to meet your machine requirements.

Water inlet, waste and hardness.

We'll check every aspect
of water supply.

If you're in a medium or hard
water area we'll recommend
a machine with an integrated
water softener.

**We also measure
the location and
access.**

We'll make sure that
your new machine is
the perfect fit for your
kitchen and needs.

So, what's the big deal?

Your dishwasher plays an essential part in every service, it's needs to deliver day after day.

A warewashing site survey gives you ultimate confidence that you have selected the right machine to deliver optimum performance and keep your kitchen going.

Available in

3 models

to match wash volumes. **Everyday, intermediate and intensive** use.

Washing up to

720

**gleaming plates
every hour.**

Keeping every
service moving.
