

# Wasabi and Zenlayer Combine High-Performance Computing with Cloud Flexibility

## What is Zenlayer Compute?

Zenlayer Bare Metal Cloud is a high-performance infrastructure as a service (IaaS) offering that instantly improves digital experience.

Bare Metal Cloud combines the high-performance computing power of bare metal with cloud flexibility. Customers can use it to access the cloud from any location, with high-speed performance and an advanced level of control and customization.

## Why Wasabi and Zenlayer Are Better Together?

With the combination of Wasabi and Zenlayer, customers can access the full power and flexibility of the cloud – and avoid paying for costly data egress and network fees.

Organizations can set up a private cloud environment with dedicated bare metal through Zenlayer, and combine it with Wasabi’s flexible object storage service. Customers retain full control over their data, and the ability to move data into any cloud environment without incurring extra costs.

## KEY FEATURES

- Dedicated bare metal servers for full data control
- Direct connects with Wasabi Hot Cloud Storage
- Vast global footprint with 290+ global PoPs across more than 50 countries with Zenlayer

## BENEFITS

- Predictable cost for storage with no fees for moving data
- Scale up and down instantly and without fees
- Meet compliance regulations through a complete infrastructure solution

Control your data through a full lineup of scalable and flexible compute matched with the simplicity of tier-free cloud storage. Combining the best hot cloud storage with secure and high-performing private servers to ensure direct connects and cloud bursting to handle sudden demand spikes without incurring additional costs.

## Wasabi Hot Cloud Storage Delivers Breakthrough Economics and Performance

Wasabi is the hot cloud storage company delivering low-cost, fast, and reliable cloud storage on-demand. Wasabi's solution is 80% less expensive and is faster than first-generation cloud vendors. Wasabi hot cloud storage is designed with eleven nines (99.999999999%) of object durability and data immutability that guarantees stored objects cannot be deleted or modified by anyone. Not only is Wasabi 80% less expensive to store data than traditional cloud providers, but there are also no fees for egress or API requests. Wasabi keeps all data "hot" so it can be accessed in milliseconds. All Scalify and Wasabi customers can treat their data as hot data and can quickly access their data for faster restore times.

### ABOUT WASABI

Wasabi provides simple and affordable hot cloud storage for businesses all over the world. It enables organizations to store and instantly access an unlimited amount of data with no complex tiers or egress or API fees, delivering predictable costs that save money and industry leading security and performance businesses can count on. Trusted by tens of thousands of customers worldwide, Wasabi has been recognized as one of technology's fastest-growing and most visionary companies. Created by Carbonite co-founders and cloud storage pioneers David Friend and Jeff Flowers, Wasabi is a privately held company based in Boston. Wasabi is a Proud Partner of the Boston Red Sox, and the Official Cloud Storage Partner of Liverpool Football Club and the Boston Bruins.
