

# Dell PowerProtect DD with Wasabi Hot Cloud Storage

## Executive Summary

Wasabi partners with Dell Technologies to offer cloud storage solutions that have been validated for use with Dell’s Data Protection Solutions (DPS) products. These Dell + Wasabi solutions are designed to support customers looking to benefit from the ease of use, economics, and security of Wasabi’s industry-leading cloud storage in 3 use-cases: long-term retention to the cloud, replication to the cloud, and backup to the cloud.

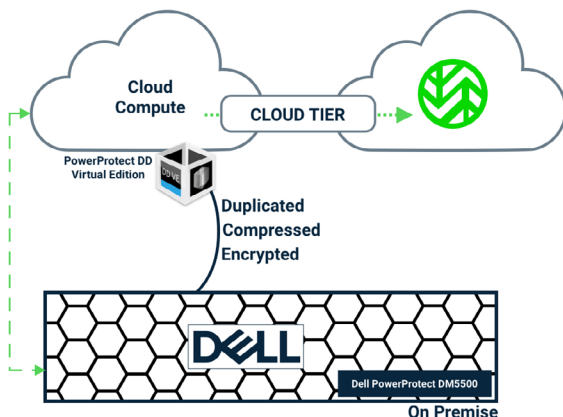

## Long Term Retention to the Cloud

Seamlessly enforce data retention while lowering your total cost of ownership by offloading aging data automatically to affordable, fast, and secure Wasabi Hot Cloud Storage.

## Replication to the Cloud

Enable hybrid cloud data mobility and gain peace of mind with a secure copy in the cloud. By replicating on-prem data protection appliances to Wasabi, you get added protection of immutable cloud storage while dramatically reducing your cloud storage costs.

## KEY FEATURES

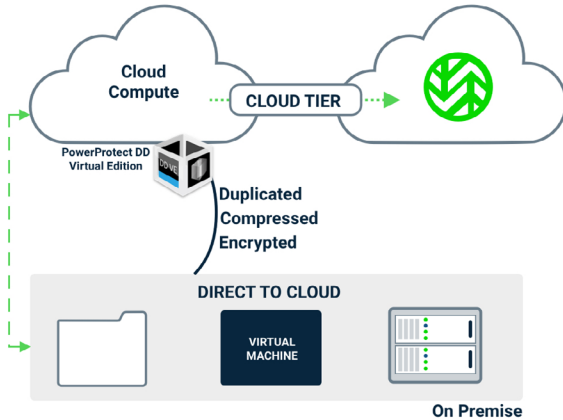

- Low-cost, high-performance cloud storage with predictable pricing
- Immutable cloud storage for risk mitigation
- High performance global data center locations with high-speed transfer and deduplication

## BENEFITS

- Test and restore your backups with no fees for egress or API calls.
- Reduce cloud storage costs and complexity with flat predictable pricing
- Keep data sovereignty, higher performance and protection from local disasters with global storage regions.

## Backup to the Cloud

Protect on-premises applications from ransomware or accidental deletion by backing up directly to immutable Wasabi Hot Cloud Storage. Protect remote sites or facilities not suitable to host data protection storage. Overcome limited WAN bandwidth back to on-premises data center.
