

Equinix Cloud Exchange Fabric and Wasabi

Direct Connectivity to the World's Most Affordable Cloud Storage Service

Wasabi hot cloud storage is fundamentally transforming the industry, with the lowest-priced and fastest-performing cloud storage solution. Unlike legacy cloud storage services with confusing storage tiers and complex pricing schemes, Wasabi is extremely easy to understand and implement, and incredibly economical to scale. One product, with predictable and straightforward pricing, supports virtually every cloud storage application.

Now you can connect your enterprise network directly to Wasabi via the Equinix Cloud Exchange™ (ECX) Fabric over 1 Gbps and 10 Gbps interfaces. Equinix connects the world's leading businesses to their customers, employees and partners inside the most-interconnected data centers. Equinix Cloud Exchange Fabric provides secure, direct, private network connections to a wide range of cloud service providers—including Wasabi.

Flexible, On-Demand, Global Interconnection

Available in 25+ locations across the globe, the advanced, software-defined interconnection solution provides consistent throughput to Wasabi and other cloud services, minimizing network latency when deployed close to the cloud service provider edge within a Performance Hub™.

ABOUT WASABI

Wasabi is the hot cloud storage company delivering disruptive storage technology that is 1/5th the price of Amazon S3 and faster than the competition with no fees for egress or API requests. Unlike first generation cloud vendors, Wasabi focuses solely on providing the world's best cloud storage platform. Created by Carbonite co-founders and cloud storage pioneers David Friend and Jeff Flowers, Wasabi is on a mission to commoditize the storage industry. Wasabi is a privately held company based in Boston, MA.
