

# Veeam® Backup for Microsoft 365 with Cost Efficient Wasabi Hot Cloud Storage

Microsoft provides powerful services within Microsoft 365 (formerly Microsoft Office 365) – but a comprehensive backup of your Microsoft 365 data is not one of them. Anyone in the professional world can attest that odds and ends of the digital workplace accumulate quickly. E-mails gather in the thousands and documents, presentations, and spreadsheets propagate into uncountable masses. This data sprawl is showing no signs of slowing down. In fact, the amount of data a company produces is growing by the year and it is essential that all of it be kept safely and securely.

Veeam® Backup for Microsoft 365 allows for backup and recovery of Exchange, SharePoint, and OneDrive for Business data. Veeam® Backup for Microsoft 365 now supports cost-effective, S3-compatible cloud object storage and is validated for interoperability with Wasabi Hot Cloud Storage. Wasabi provides the benefits of cloud object storage, offering your backups unlimited storage capacity as well as simple predictable pricing with no fees for egress or API requests. Now you can use Wasabi's affordable, high-performance, S3-compatible object storage service for increased data protection at a substantially lower cost.

Capacity size planning of storage for backing up Microsoft Exchange, OneDrive, and SharePoint can often be complex and confusing. Not only do you need the dataset size, but daily services change rates to create approximate capacity projections. If you back up the data on-premises, you must also plan for additional capacity due to MIME conversion bloating. For example, if a user has a 28MB attachment in an email, the content length is 36.6MB after it has been downloaded from Microsoft 365. Anticipating the storage usage of all Exchange online mailboxes can grow frustrating. By using Wasabi hot cloud storage for Microsoft 365 backup, customers can leverage the unlimited capacity of the cloud. Wasabi offers a bottomless repository for backups in a simple, predictable pricing model. Leveraging object storage repositories help reduce recurring storage costs for Microsoft 365 backups, and Wasabi's cost-effective cloud storage extends these benefits further with costs 80% less than AWS.

## Wasabi Hot Cloud Storage Delivers Breakthrough Economics and Performance

Wasabi is the hot cloud storage company delivering low-cost, fast, and reliable cloud storage on-demand. Wasabi's solution is 80% less expensive and is faster than first-generation cloud vendors. Wasabi hot cloud storage is designed with eleven nines (99.999999999%) of object durability and data immutability that guarantees stored objects cannot be deleted or modified by anyone. Not only is Wasabi 80% less expensive to store data than traditional cloud providers, there are also no fees for file egress or API requests. Wasabi keeps all data "hot" so it can be accessed in milliseconds. All Veeam and Wasabi customers can treat their data as hot data, so they can shorten backup windows and quickly access their data for faster restore times. Wasabi is qualified as [Veeam Ready Object](#) and is available using the S3 Compatible Object Storage selection within Veeam Backup for Microsoft 365.

## KEY FEATURES

- Protect Microsoft 365 data from accidental deletion, security threats and retention policy gaps and cut your cloud storage costs by 80% with Wasabi Hot Cloud Storage
- Quickly restore individual Microsoft 365 items with industry-leading recovery flexibility from Wasabi with no egress charges or API request fees
- Meet legal and compliance requirements with efficient eDiscovery of data archives protected by enterprise-class security
- Maintain business continuity with Wasabi data center redundancy, 11x9s data durability, and immutable storage

## BENEFITS

- Unlimited backup to cloud object storage
- Ensure your data is always available and protected
- At-rest encryption for Microsoft 365 data in object storage
- Eliminates the risk of losing access to your Microsoft 365 data, including Exchange Online, SharePoint Online and OneDrive for Business

## About Veeam

Veeam® is the leader in backup solutions that deliver Cloud Data Management™. Veeam provides a single platform for modernizing backup, accelerating hybrid cloud and securing your data. With 365,000+ customers worldwide, including 81% of the Fortune 500 and 66% of the Global 2,000, Veeam customer satisfaction scores are 3.5x the industry average — the highest in the industry. Veeam’s global ecosystem includes 70,000+ partners, including HPE, NetApp, Cisco and Lenovo as exclusive resellers. Headquartered in Baar, Switzerland, Veeam has offices in more than 30 countries.
