

Powerful and Secure Data Storage for Veeam® Backup for Microsoft 365 with Wasabi Hot Cloud Storage

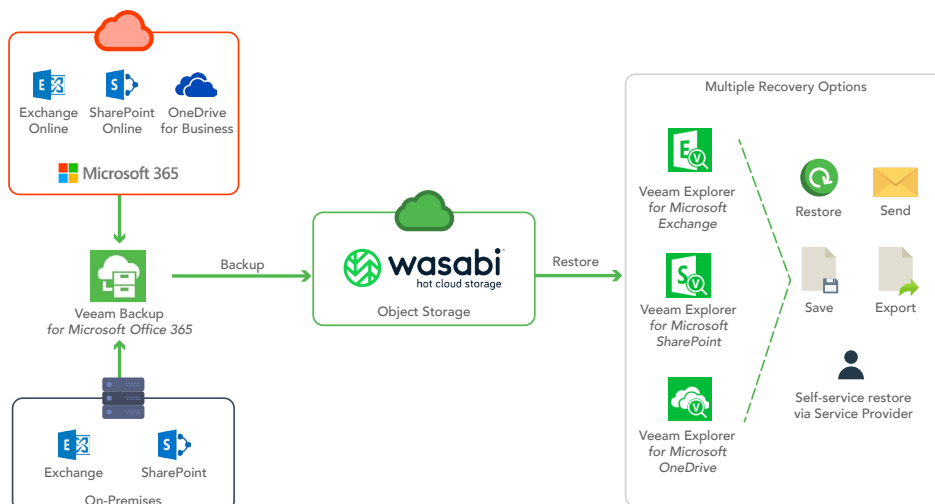

What is Veeam® Backup for Microsoft 365 (VBM)?

Microsoft 365 (formerly Office 365) provides a powerful suite of productivity solutions, but a comprehensive backup of your Office 365 data is not one of them. Veeam® Backup for Microsoft 365 eliminates the risk of losing access and control over your Office 365 data, including Exchange Online, SharePoint Online, OneDrive for Business and Microsoft Teams, so your data is always protected and accessible.

Veeam Backup for Microsoft 365 empowers you to securely back up Office 365 to any location, whether that be on-premises, in cloud object storage, or managed as a service. repositories help reduce recurring storage costs for Microsoft 365 backups, and Wasabi’s cost-effective cloud storage extends these benefits further with costs 80% less than AWS.

Why Wasabi and Veeam Are Better Together?

With Veeam, organizations have the ability to have control over and protection of their Microsoft 365 data. By adding Wasabi Hot Cloud Storage, organizations can ensure you can backup and restore your Microsoft 365 data and ensure the data is protected from accidental deletion, security threats and retention policy gaps while cutting your cloud storage costs by 80%.

KEY FEATURES

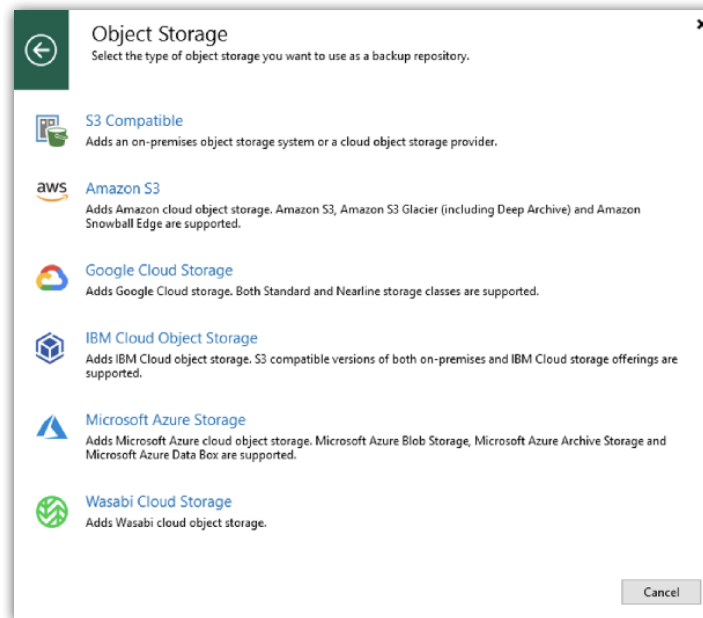

- Powerful protection for your Microsoft 365 data from accidental deletion
- Simplify the backup redundancies with direct-to-cloud primary and secondary copies
- Quickly & cost-effectively restore individual M365 items
- Meet legal and compliance requirements with enterprise-class security
- Maintain business continuity with 11x9s of data durability

BENEFITS

- No added costs to extend secure locks (API) or restore backups (egress)
- Ensure your data is always available and protected
- At-rest encryption for Microsoft 365 data in object storage
- Eliminates the risk of losing access to your Microsoft 365 data

Combined with Veeam Backup for Microsoft 365, Wasabi provides the benefits of cloud object storage, offering your backups unlimited storage capacity as well as simple predictable pricing with no fees for egress or API requests. With Wasabi's Object Lock technology, you can guarantee that your data cannot be deleted or modified by anyone inside or outside of your organization.

Veeam Backup for Microsoft Office 365 also supports Wasabi hot cloud object storage as a primary backup storage system, enabling enterprises large and small to economically leverage the limitless capacity of the cloud for short-term and long-term retention.

Wasabi Hot Cloud Storage Delivers Breakthrough Economics and Performance

Wasabi is the hot cloud storage company delivering low-cost, fast, and reliable cloud storage on-demand. Wasabi's solution is 80% less expensive and is faster than first-generation cloud vendors. Wasabi Hot Cloud Storage is designed with eleven nines (99.99999999%) of object durability and data immutability that guarantees stored objects cannot be deleted or modified by anyone. Not only is Wasabi 80% less expensive to store data than traditional cloud providers, but there are also no fees for egress or API requests. Wasabi keeps all data "hot" so it can be accessed in milliseconds. All Veeam and Wasabi customers can treat their data as hot data, so they can shorten upload windows and quickly access their data for faster restore times.

ABOUT WASABI

Wasabi provides simple, predictable and affordable hot cloud storage for businesses all over the world. It enables organizations to store and instantly access an unlimited amount of data at 1/5th the price of the competition with no complex tiers or unpredictable egress fees. Trusted by tens of thousands of customers worldwide, Wasabi has been recognized as one of technology's fastest-growing and most visionary companies. Created by Carbonite co-founders and cloud storage pioneers David Friend and Jeff Flowers, Wasabi is a privately held company based in Boston.
