Connect Digital Ecosystems with Enhanced Speed and Performance with Wasabi and Console Connect

What is Console Connect?

Console Connect is a leading Network-as-a-Service (NaaS) platform that makes it simple for businesses to securely interconnect clouds, applications, devices, data centers and office locations. Unlike other NaaS offerings, Console Connect runs on its own underlying global network infrastructure.

This means customers get access to a best-in-class global private network, with extensive reach to more than 50 countries worldwide. Console Connect also provides an assured quality of service that is backed by industry-leading SLAs.

Through an intuitive, easy-to-use management portal, customers can order, change and manage their network connections in real-time, with point and click provisioning. Or users can even integrate via API.

Why Console Connect and Wasabi Are Better Together?

As the quantity of data being generated continues to grow exponentially and mission-critical information and applications are deployed at the point of demand, Console Connect and Wasabi provide new levels of flexibility, agility and performance. Accelerate, simplify and assure business cloud strategy with out-of-the-box, cost-effective, highly performant cloud storage, secured end-to-end, from Wasabi and Console Connect.

By connecting Wasabi's high performance hot cloud storage capabilities across the world's largest Software Defined Network, owned by Console Connect, organizations can instantly unlock new levels of performance across fully secure, uncontended connectivity. All of this delivered with cost benefits, thanks to Wasabi's predictably priced storage services and Console Connect's ability to reduce ingress and egress fees when moving data between clouds.

Console Connect and Wasabi also provide a secure, compliant solution with private connectivity so organizations can keep their sensitive data safe, and from all major clouds to Wasabi hot cloud storage, knowing exactly where your data goes and that only you are able to access it.
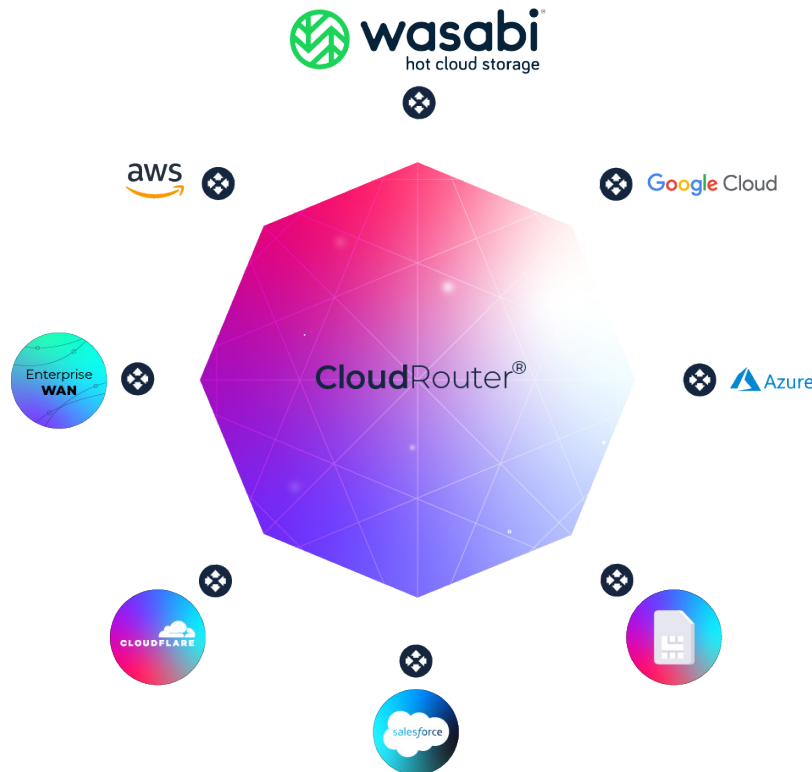

KEY FEATURES

- Connect seamlessly between Wasabi and other cloud providers, or build a hybrid cloud environment at the click of a button.

- Private and secure connectivity to ensure that Wasabi's high-speed storage service is leveraged under the best conditions

- Manage network connections and cloud storage through one platform.

BENEFITS

- Slash storage and data protection cost and complexity

- Simplify setup and administration

- Accelerate backup and recovery cycles

- Reduce risk and exposure due to data loss

- Protect against equipment failures, disasters, human error, ransomware and malware

In just minutes, it is possible to spin up Wasabi cloud storage and weave it seamlessly into multi-cloud deployments with private Software Defined Cloud Interconnections, delivered on-demand and with simple, predictable, pay-as-you-go pricing models.

Wasabi Hot Cloud Storage Delivers Breakthrough Economics and Performance

Wasabi is the hot cloud storage company delivering low-cost, fast, and reliable cloud storage on-demand. Wasabi's solution is 80% less expensive and is faster than first-generation cloud vendors. Wasabi hot cloud storage is designed with eleven nines (99.999999999%) of object durability and data immutability that guarantees stored objects cannot be deleted or modified by anyone. Not only is Wasabi 80% less expensive to store data than traditional cloud providers, but there are also no fees for egress or API requests. Wasabi keeps all data "hot" so it can be accessed in milliseconds. All Console Connect and Wasabi customers can treat their data as hot data, so they can shorten upload windows and quickly access their data for faster restore times

ABOUT WASABI

Wasabi provides simple and affordable hot cloud storage for businesses all over the world. It enables organizations to store and instantly access an unlimited amount of data with no complex tiers or egress or API fees, delivering predictable costs that save money and industry leading security and performance businesses can count on. Trusted by customers worldwide, Wasabi has been recognized as one of technology's fastest-growing and most visionary companies. Created by Carbonite co-founders and cloud storage pioneers David Friend and Jeff Flowers, Wasabi is a privately held company based in Boston. Wasabi is a Proud Partner of the Boston Red Sox, and the Official Cloud Storage Partner of Liverpool Football Club and the Boston Bruins.
