

Unlimited, Centralized File Scalability with Nasuni Cloud File Storage and Wasabi Hot Cloud Storage

Data growth is spiraling out of control, creating operational and financial challenges for many IT organizations. Conventional on-site storage platforms and first-generation cloud storage services are too expensive and complicated to scale and manage, and no longer suit the distributed workforce of many enterprises. Wasabi has partnered with Nasuni to help businesses reduce storage cost and complexity. Eliminate islands of traditional Network Attached Storage (NAS), file backup, and disaster recovery with Nasuni and Wasabi's unified, infinitely scalable, and simple to manage file services solution.

Nasuni Cloud File Storage built on Wasabi delivers a simple, fast, and low-cost enterprise file storage solution for all your data needs. By eliminating the need for traditional NAS and file servers and replacing them with a simplified cloud solution that provides unlimited file server capacity on-demand, built-in backup, disaster recovery, rapid ransomware recovery, and file sharing across any number of users and locations, you can save up to 50% or even more on your business' overall storage costs. Nasuni and Wasabi deliver unlimited scalability to your enterprise with fast, local file access for your global and remote workforce, whether it consists of one site or hundreds.

Wasabi Hot Cloud Storage Delivers Breakthrough Economics and Performance

Wasabi is the hot cloud storage company delivering low-cost, fast, and reliable cloud storage on-demand. Wasabi's solution is 80% less expensive and is faster than first-generation cloud vendors. Wasabi hot cloud storage is designed with eleven nines (99.999999999%) of object durability and data immutability that guarantees stored objects cannot be deleted or modified by anyone. Not only is Wasabi 80% less expensive to store data than traditional cloud providers, but there are also no fees for egress or API requests. Wasabi keeps all data "hot" so it can be accessed in milliseconds. All Nasuni and Wasabi customers can treat their data as hot data, so they can shorten upload windows and quickly access their data for faster restore times.

KEY FEATURES

- Unified storage hub with unlimited file storage
- Global file synchronization with File Locking
- Continuous file versioning with immutable protection
- 15-minute disaster recovery and Rapid Ransomware Recovery

BENEFITS

- Reduce storage costs by up to 50% or more
- Eliminate the need for legacy file servers
- Simple, unlimited file sharing capacity on-demand
- Accelerate workforce productivity across thousands of users and millions of files
