

Zmanda Backup & Recovery and Zmanda Cloud Storage, powered by Wasabi for Simple, Cost-Effective Data Protection

What is Zmanda Enterprise Backup & Replication?

As teams work on increasingly complex projects with limited resources, the demand for simple and cost-effective data management solutions has never been higher. Layer in the risk of ransomware attacks and the requirements to have flexibility without sacrificing security or performance and you have a difficult task on your hands. Enter Zmanda open-source backup and recovery coupled with Zmanda Cloud Storage, powered by Wasabi.

Zmanda Cloud Storage powered by Wasabi allows Zmanda customers to seamlessly backup workloads to the cloud with the simple click of a button within Zmanda Management Console (ZMC) for a truly streamlined experience.

Security and integration are managed by Zmanda to reduce complexity. Operational tasks are enabled with complete data management within the Zmanda Enterprise Backup platform.

Why are Wasabi and Zmanda better together

Zmanda Cloud Storage powered by Wasabi allows Zmanda EBR customers to have a complete end-to-end data management solution that can add scalable cloud storage and back up your data with the simple click of a button.

Zmanda ransomware protection complemented by immutable cloud object storage allows you to create copies of your data that are locked down from being moved, edited or deleted.

Now you can leverage Zmanda Cloud Storage powered by Wasabi as a primary backup target or as a secondary, offsite target, allowing you to easily meet the 3-2-1 backup standard at a fraction of the cost of the competitors. Zmanda customers with legacy, on-prem storage can also utilize this solution to easily migrate backups to the cloud to meet hybrid infrastructure requirements.

KEY FEATURES

- Optimize for data deduplication and archival to tape.
- Install in 15 minutes with pre-packaged deployments
- Zero-trust security, end-to-end encryption, BYOK, LDAP, SSO, and RBAC

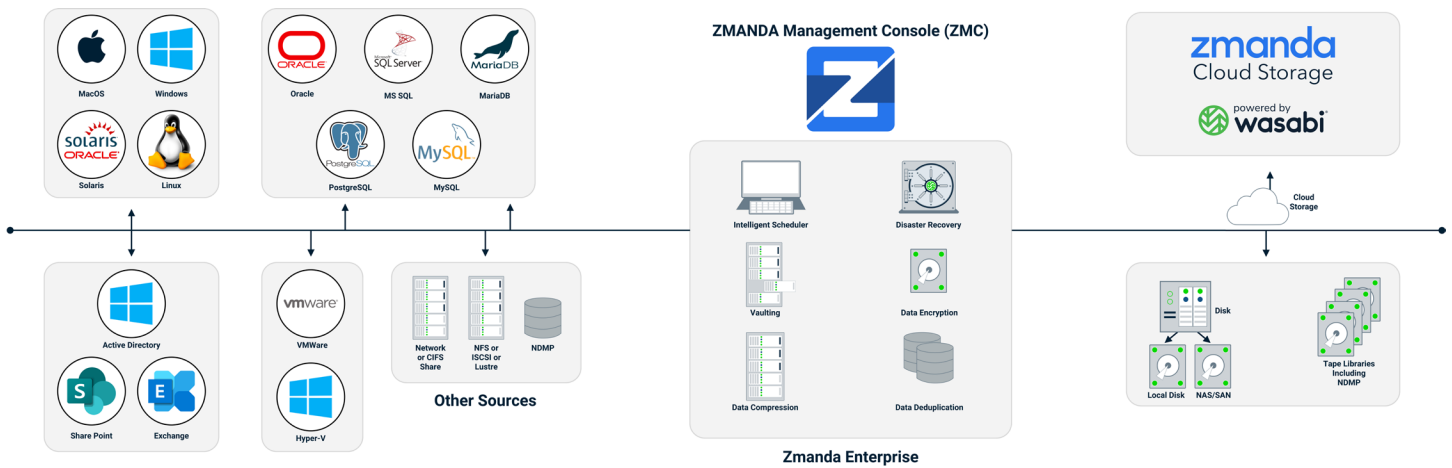

BENEFITS

- Affordable and predictable billing with no fees for egress or APIs
- Comprehensive 3-2-1 data protection standards
- Two layers of cyber protection and risk mitigation

Your data will be automatically replicated for redundancy and protection against data loss or corruption to be available when you need it the most. And having all this simplicity and security is available without having to pay egress and API fees to access your own data, is a reason alone to leverage Zmanda cloud storage.

About Wasabi

Wasabi is a public cloud object storage service that is 1/5th the price of AWS S3 and faster than the competition with no fees for egress or API requests. Wasabi provides 11 x 9s of data durability, high system availability, and support for immutable storage buckets. Wasabi is fully compatible with the AWS S3 API with support for hundreds of S3-compatible storage applications, including Zmanda, and has been certified for compliance with enterprise security and privacy standards.

ABOUT WASABI

Wasabi provides simple, predictable and affordable hot cloud storage for businesses all over the world. It enables organizations to store and instantly access an unlimited amount of data at 1/5th the price of the competition with no complex tiers or unpredictable egress fees. Trusted by tens of thousands of customers worldwide, Wasabi has been recognized as one of technology's fastest-growing and most visionary companies. Created by Carbonite co-founders and cloud storage pioneers David Friend and Jeff Flowers, Wasabi is a privately held company based in Boston.
