Complete Media Workflow Solution Meets Next Generation Cloud Storage with Scale Logic WorkflowConnect + Wasabi

Overview

WorkflowConnect is a comprehensive media workflow solutions platform representing the full spectrum of hardware and software to meet all evolving media workflow needs. Scale Logic's 30+ years of experience, leading-edge interoperability lab, and media-centric WorkflowConnect Platform delivers small, medium, and enterprise-class hybrid collaborative workflows for on-prem and remote video professionals. With solutions for design, editing, manufacturing, implementation, training, and full post-installation support, Scale Logic is your one-stop shop committed to a superior out-of-box experience.

Wasabi Hot Cloud Storage Delivers Breakthrough Economics and Performance

Wasabi is the hot cloud storage company delivering low-cost, fast, and reliable cloud storage on-demand. Wasabi's solution is 80% less expensive and faster than first-generation cloud vendors. Wasabi hot cloud storage is designed with eleven nines (99.999999999%) of data durability and object immutability that guarantees stored objects cannot be deleted or modified by anyone. Not only is Wasabi less expensive to store data than traditional cloud providers, there are no unpredictable fees for data egress or API requests. With Wasabi, data uploads are faster and retrieval times are reduced to power today's demanding workloads.

WorkflowConnect + Wasabi Hot Cloud Storage for Media Professionals

WorkflowConnect provides an integrated cloud storage bridge that makes connecting to Wasabi simple. Users gain a unified view of all storage, including on-premises hardware as well as cloud storage, as well as intelligent data awareness from WorkflowConnect's sophisticated business intelligence (BI) application. WorkflowConnect BI enables powerful search functionality across storage mediums as well as assessment of the data costs associated with individual projects.
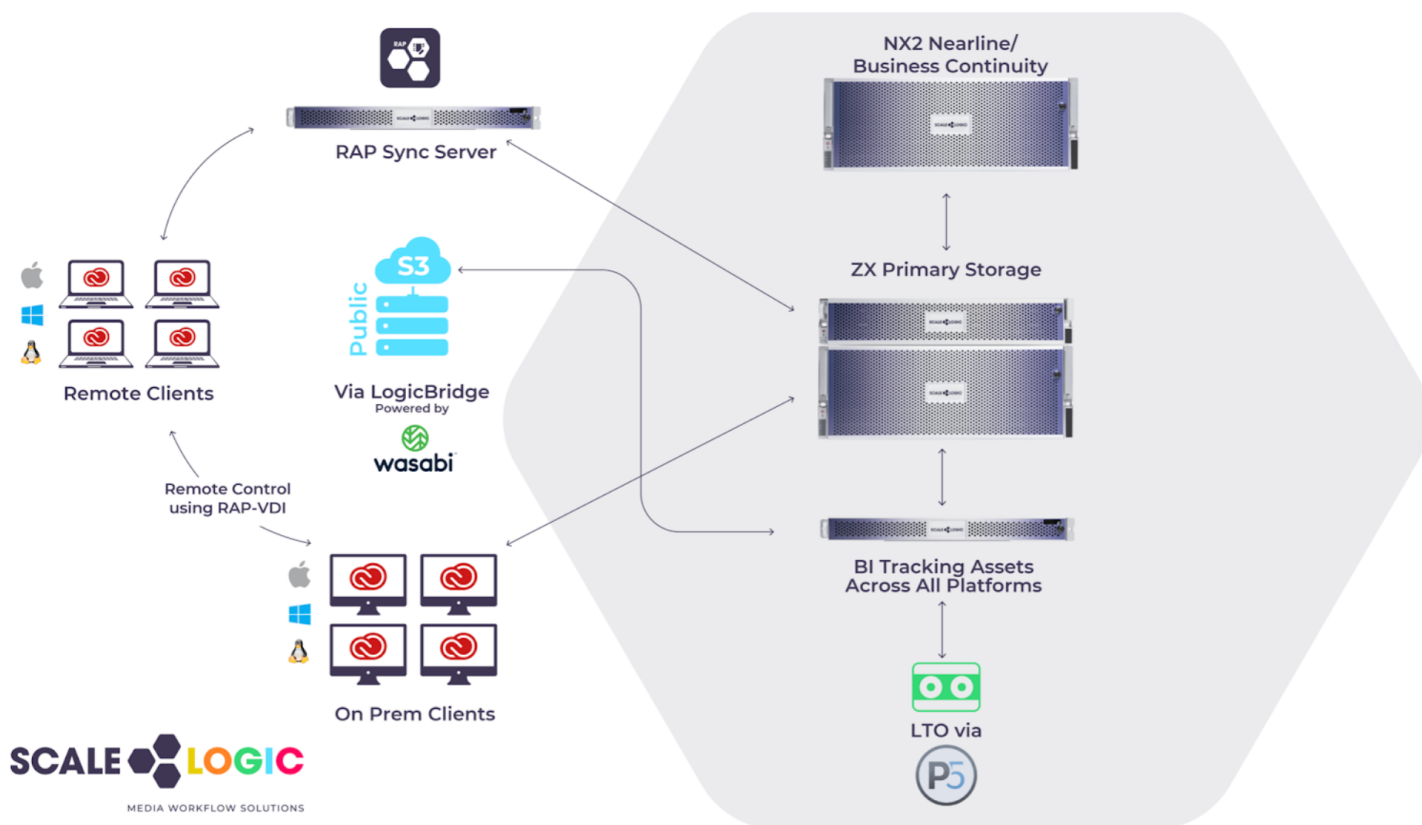

KEY FEATURES

- NX2 & ZX production storage with Wasabi connector
- LogicBridge automates data movement to Wasabi
- WorkflowConnect BI & Analytics provides data awareness with actionable insight
- RAP-VDI video edit appliance for remote access

BENEFITS

- Connect on-prem shared storage with Wasabi cloud seamlessly
- Remote access to all storage and workstations enables global collaboration
- Proven efficiencies in media workflow and management for reduced overall costs

Combine primary hardware storage with Wasabi hot cloud storage for building active archives and ensuring business continuity. Wasabi's cloud storage is free of egress and API request charges, allowing users unfettered access to their data without incurring additional costs. Wasabi's bottomless storage powers media production enterprises with the freedom of a never-ending well of storage, which is always kept hot and accessible from any web portal through WorkflowConnect's easy-to-use UI.
