Comprehensive Backup and Recovery with Wasabi & Storware

Overview

As unstructured data continues to grow exponentially year-over-year, enterprises are increasingly in need of a robust data protection strategy. Backup and restoration is crucial not just for files and folders but applications, VMs, and everything in between.

Storware Backup and Recovery is an enterprise-ready, agentless backup and snapshot management solution for virtual machines, containers, and cloud environments, including Microsoft 365, applications, and storage providers. Storware features stability and excellent integration with Wasabi object storage.

It offers support for the largest number of vendors on the market, both open and commercial, allowing the use of Wasabi as a key element of companies' backup strategies. It allows you to reliably improve and automate backup performance in your organization, automate recovery tests, and significantly save resources, time and money.

Wasabi Hot Cloud Storage Delivers Breakthrough Economics and Performance

Wasabi is the hot cloud storage company delivering low-cost, fast, and reliable cloud storage on-demand. Wasabi's solution is 80% less expensive and is faster than first-generation cloud vendors. Wasabi hot cloud storage is designed with eleven nines (99.999999999%) of object durability and data immutability that guarantees stored objects cannot be deleted or modified by anyone. Not only is Wasabi 80% less expensive to store data than traditional cloud providers, but there are also no fees for egress or API requests. Wasabi keeps all data "hot" so it can be accessed in milliseconds. All Storware and Wasabi customers can treat their data as hot data, so they can shorten upload windows and quickly access their data for faster restore times.
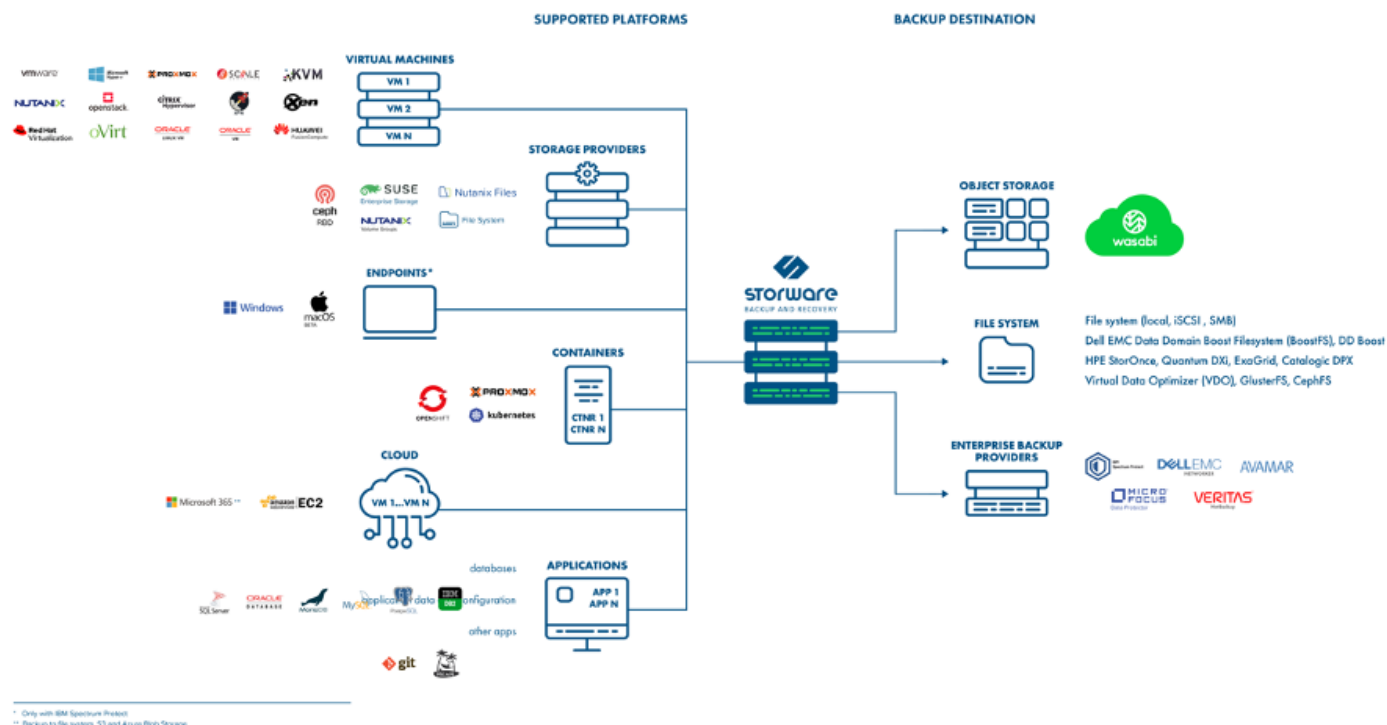

KEY FEATURES

- Seamless integration with low-cost storage offering long term retention

- Enterprise-ready, fast, and reliable backup and recovery

- Native ransomware protection (immutable bucket and immutable object)

- Easy to use data explorer, accessible directly from the web UI

- Cost optimization through transparent and flexible licensing with no hidden fees for both Storware and Wasabi.

BENEFITS

- Lightweight, easily scalable, agentless solution

- Supports multiple backup destinations and sources to meet the highest security standards

- Flexible licensing to achieve the best ROI (per Host, per VM, per TB) with high-quality, global support

- Available language versions: English, Chinese, Spanish, German, French, Japanese

- Time and resource savings guaranteed by fast backup and task automation

Comprehensive Backup Meets Next Generation Cloud Storage

Wasabi's bottomless cloud storage allows for infinite scalability when it comes to backup. Wasabi's affordable per-TB pricing model makes budgeting simple. Combined with Wasabi's lack of egress fees and API request charges, your storage bill is predictable month-to-month. This, combined with an agentless, comprehensive backup solution from Storware guarantees all your data can be safely and affordably secured. Storware and Wasabi are purpose-built to collect and store data at enterprise scale.
