

Cut Backup Costs with BridgeSTOR and Wasabi

Back up to the World's Most Affordable and Fastest Cloud Storage Service

Data growth is spiraling out of control—doubling every year in many businesses. Many companies are struggling to protect data against equipment failures, disasters and ransomware. Replicating data to a secondary data center is an expensive proposition, beyond the reach of most organizations. And backing up to tape is a manually intensive and inefficient process that often leaves valuable business data unprotected.

Wasabi has partnered with [BridgeSTOR](#) to help companies improve data protection, reduce risks and save money. Wasabi hot cloud storage is incredibly economical and fast cloud object storage for any purpose. And BridgeSTOR Rio-2 Cloud Backup Server is the fastest and easiest way to send backup data to the cloud. The integrated solution lets you quickly and easily back up all your vital business data to the industry's lowest-cost and fastest-performing cloud storage service.

Wasabi Hot Cloud Storage Delivers Breakthrough Economics and Performance

Wasabi hot cloud storage is the industry's most affordable and highest-performing cloud storage service, making it an ideal backup storage repository. Wasabi is 80% cheaper and faster than alternative cloud storage services like Amazon S3.

Engineered for extreme data integrity and security, Wasabi provides eleven 9s object durability and supports configurable data immutability to protect against accidental deletions, ransomware and viruses. A parallelized system architecture delivers breakthrough performance, so you can rapidly move backup images in and out of the cloud.

Bridgestor Rio-2 Cloud Backup Server Accelerates and Simplifies Data Protection

The BridgeSTOR Rio-2 Cloud Backup Server lets you easily back up data to the cloud for ultimate economics, scalability and agility. The Rio-2 is a hybrid cloud solution supports standard NAS protocols such as SMB and NFS making it easy to insert cloud storage into existing backup practices. Simply map a drive letter to the Rio-2 over Windows or NFS, point the backup software to the share and start sending the data to the cloud. The Rio-2 also supports an iSCSI VTL so you may efficiently migrate legacy tapes to the cloud. Rio-2 also includes the BridgeSTOR Cloud Storage Edge Cache, which accelerates data transfers, shrinking backup windows.

KEY FEATURES

- Fast, reliable and efficient backup
- Ultra-low-cost secondary cloud storage
- Durable storage for archival and compliance
- Seamless integration and operation

BENEFITS

- Reduce risk and exposure due to data loss
- Protect against equipment failures, disasters, human error, ransomware and malware
- Accelerate backup cycles
- Reduce cost and complexity

Native Veeam Support

The Rio-2 Cloud Backup Server is built on Centos 7 and is a fully functional, software-based solution and may be used as a Veeam Linux Repository allowing Veeam to seamlessly send backup data to the Wasabi hot cloud storage. The Rio-2 Cloud Backup Server runs in most Virtual Machine environments or may be installed on customer-supplied hardware. Simple to deploy and manage, Rio-2 can be installed and running in less than 30 minutes, using a set it and forget it GUI.

Versatile Solution Supports Many Use Cases

With BridgeSTOR you can efficiently leverage fast and cost-effective Wasabi hot cloud storage for a variety of purposes including:

- Secondary storage for backup or for disaster recovery in the cloud
- Archival storage for compliance and long-term data retention
- Transitional and primary storage for data migration initiatives

ABOUT WASABI

Wasabi is the hot cloud storage company delivering disruptive storage technology that is 1/5th the price of Amazon S3 and faster than the competition with no fees for egress or API requests. Unlike first generation cloud vendors, Wasabi focuses solely on providing the world's best cloud storage platform. Created by Carbonite co-founders and cloud storage pioneers David Friend and Jeff Flowers, Wasabi is on a mission to commoditize the storage industry. Wasabi is a privately held company based in Boston, MA.
