Fast and Accurate File and Object Migrations to Wasabi with Datadobi

You know the best place for your business to store your data is in Wasabi's cloud, but moving all your data there is easier said than done. Your enterprise's ability to utilize the latest storage technology depends on how quickly, efficiently, and minimally disruptively you can migrate data from legacy storage systems and bring it online. Datadobi helps to simplify the file and object migration process, allowing you to quickly realize the benefits of Wasabi cloud storage. This solution removes the pain points associated with migrating data from other storage systems, giving back your time, saving you money and minimizing any worries you may have about the migration process.

Migrate File and Object Data From Anywhere to Wasabi Cloud Storage

DobiMigrate® is enterprise-class software that lets you migrate file or object data between any storage platform, on-premises or in the cloud – safely, quickly, easily, and cost effectively.

Realize ROI faster on your new storage investment and lower the TCO during migration.

Experience big savings across the board thanks to fast, efficient cutovers and short project duration. DobiMigrate features customizable scheduling and throttling capabilities to ensure migration happens on your terms. Say goodbye to time-consuming migration tasks and focus instead on value-added activities. With automatic integrity checking, advanced error reporting and live feedback on the migration process, you can rest assured that your files will be copied accurately and safely.

DobiMigrate's suite of features allows any enterprise to quickly and easily migrate millions of files and petabytes of unstructured data. Any storage system, virtual or physical, can be migrated to Wasabi hot cloud storage using either NFS, SMB or S3 protocols*. The sooner Wasabi customers can ingest data into the cloud, the sooner they will realize the cost savings and performance benefits of Wasabi hot cloud storage.
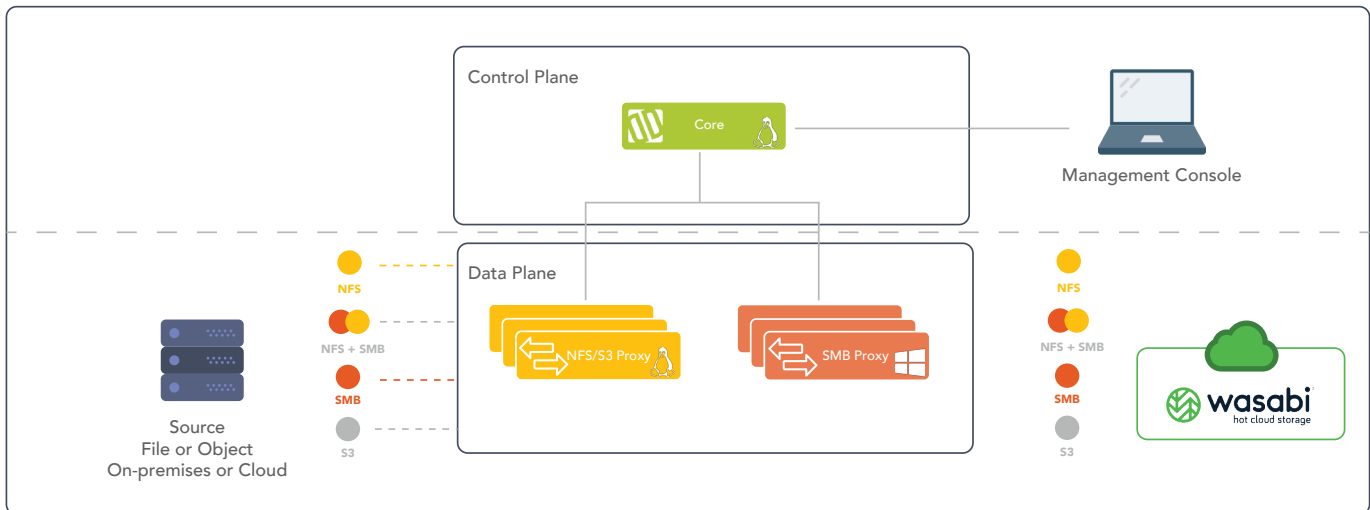

KEY FEATURES

- Simplified migration
- Substantially reduce migration times
- Reduce the level of effort with complete end-to-end automation
- Clear monitoring and detailed insight in the migration process
- Group and track multiple migrations
- Easily move large datasets

BENEFITS

- Simplify your storage
- Reduce system outage time
- Massive scalability
- 100% verification: validate and maintain data integrity
- Complete chain of custody for all migrated data
- Gain flexibility

Wasabi Hot Cloud Storage Delivers Breakthrough Economics and Performance

Wasabi is the hot cloud storage company delivering low-cost, fast and reliable cloud storage on-demand. Wasabi's solution is 80% less expensive and is faster than first-generation cloud vendors. Wasabi hot cloud storage is designed with eleven nines (99.999999999%) of object durability and data immutability that guarantees stored objects cannot be deleted or modified by anyone. Not only is Wasabi 80% less expensive to store data than traditional cloud providers, but there are also no fees for egress or API requests. Wasabi keeps all data "hot" so it can be accessed in milliseconds. All Datadobi and Wasabi customers can treat their data as hot data, so they can shorten backup windows and quickly access their data for faster restore times.

* Migrating NFS or SMB data to Wasabi will impact the application writing the data. Please contact Datadobi for more information.
