

Synchronization and Backups for Cloud Data Warehousing with DataLakeHouse.io and Wasabi

What is DataLakeHouse.io?

DataLakeHouse.io (DLH.io) Data Sync provides replication and synchronization of operational systems (on-premise and cloud-based SaaS) data into destinations of their choosing, primarily Cloud Data Warehouses. Built for any data team at any size organization, DLH.io enables a variety of business use cases for building single source of truth data repositories, including dimensional data warehouses, data vault 2.0, other machine learning workloads, and backing up data from Cloud Data Warehouses.

Why DataLakeHouse.io and Wasabi Are Better Together?

Using the combination of DataLakeHouse.io and Wasabi allows organizations to benefit from a proven solution of data integration and migration for modern data workloads at a favorable economic scale. Looking at modern data initiatives happening in the world, the requirement to have scalable and cost-effective data lake storage combined with best-in-class data integration is paramount to the success of bringing data insights and analytics to top performing organizations. The combined strength of Wasabi and DataLakeHouse.io enables organizations to synchronize, replicate, transform, backup, and store data in a reliable automated manner.

Wasabi Hot Cloud Storage Delivers Breakthrough Economics and Performance

Wasabi is the hot cloud storage company delivering low-cost, fast, and reliable cloud storage on-demand. Wasabi's solution is 80% less expensive and is faster than first-generation cloud vendors. Wasabi hot cloud storage is designed with eleven nines (99.999999999%) of object durability and data immutability

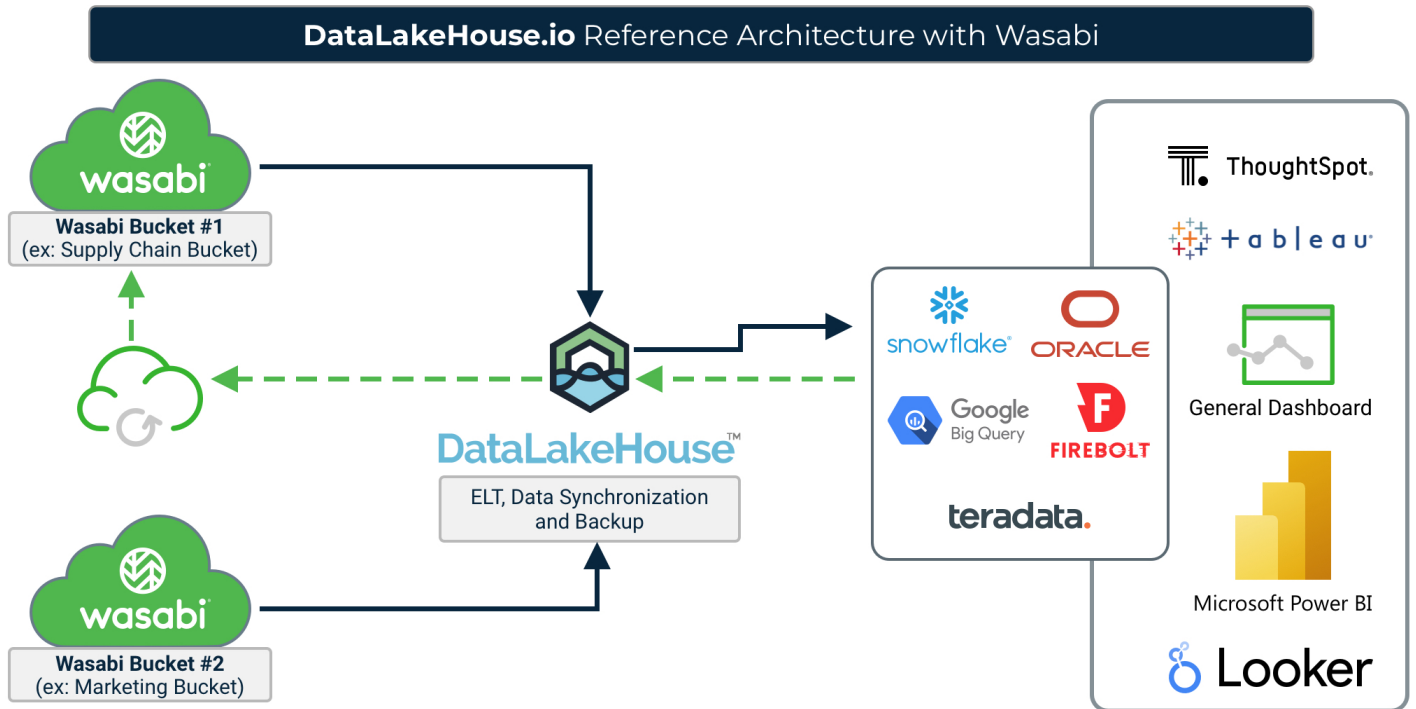

KEY FEATURES

- Ultra-low-cost cloud storage for any purpose
- Easy-to-use file management and data protection tools
- Seamless integration and operation
- Fast and reliable cloud backup and recovery for diverse operating systems, hypervisors and hardware platforms

BENEFITS

- Slash storage and data protection cost and complexity
- Simplify setup and administration
- Accelerate backup and recovery cycles
- Reduce risk and exposure due to data loss
- Protect against equipment failures, disasters, human error, ransomware and malware

that guarantees stored objects cannot be deleted or modified by anyone. Not only is Wasabi 80% less expensive to store data than traditional cloud providers, but there are also no fees for egress or API requests. Wasabi keeps all data “hot” so it can be accessed in milliseconds. All DataLakeHouse.io and Wasabi customers can treat their data as hot data, so they can shorten upload windows and quickly access their data for faster restore times.

ABOUT WASABI

Wasabi provides simple, predictable and affordable hot cloud storage for businesses all over the world. It enables organizations to store and instantly access an unlimited amount of data at 1/5th the price of the competition with no complex tiers or unpredictable egress fees. Trusted by tens of thousands of customers worldwide, Wasabi has been recognized as one of technology’s fastest-growing and most visionary companies. Created by Carbonite co-founders and cloud storage pioneers David Friend and Jeff Flowers, Wasabi is a privately held company based in Boston.
