

Improve Information Governance with Wasabi and Congruity360

Ensure Compliance, Reduce Storage Costs and Mitigate Risk

Data growth is spiraling out of control, creating financial challenges and legal risk for corporate IT organizations, InfoSec teams and compliance officers. Many businesses are struggling to keep pace with skyrocketing data volumes and increasingly onerous data security and privacy regulations.

Wasabi has partnered with Congruity360 to help organizations overcome these difficult challenges. Wasabi hot cloud storage is incredibly affordable and fast cloud object storage for any purpose. And Congruity360's C360 suite is a comprehensive collection of information governance tools that provides valuable insights into sensitive data. Delivered as a fully managed service, the tightly integrated Wasabi and Congruity360 solution, helps companies slash storage cost and complexity, improve regulatory compliance and reduce legal risk and financial exposure.

Wasabi Hot Cloud Storage Delivers Breakthrough Economics

Wasabi hot cloud storage is the industry's most affordable and highest-performing cloud storage service. Wasabi is 80% cheaper and up to 6x the speed of alternative cloud storage services like Amazon S3.

Specifically conceived to make cloud storage a commonplace utility like electricity, Wasabi hot cloud storage is easy to understand, easy to order and incredibly cost-effective to scale. With Wasabi there are no confusing cloud storage tiers to decipher and no complicated fee structures to decode.

Engineered for extreme data integrity and security, Wasabi provides eleven 9s object durability and supports configurable data immutability to protect against accidental deletions and ransomware. Wasabi also encrypts data at rest and in transit to ensure compliance with data privacy mandates. A parallelized architecture lets you rapidly move large datasets in and out of the cloud for discovery, analysis and review.

Congruity360's C360 Suite Streamlines Information Governance

Congruity360's C360 Suite helps InfoSec organizations, risk and compliance officers, and legal teams address stringent data privacy and security regulations such as HIPAA and GDPR. Delivered as a fully managed service, the C360 Suite is a collection of integrated tools that let you quickly and efficiently analyze data, identify potential compliance issues and take corrective actions. The C360 Suite includes Audit, Intelligence, Action (AIA)

KEY FEATURES

- Ultra-low-cost cloud storage for any purpose
- Easy-to-use file management and data protection tools
- Seamless integration and operation
- Fast and reliable cloud backup and recovery for diverse operating systems, hypervisors and hardware platforms

BENEFITS

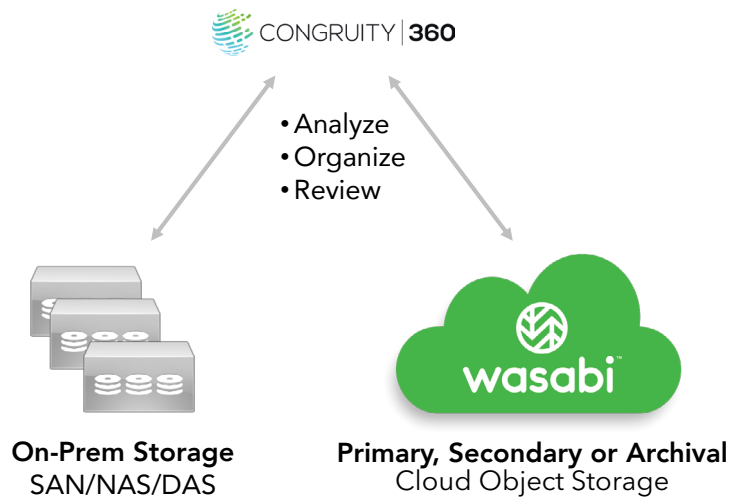

- Slash storage and data protection cost and complexity
- Simplify setup and administration
- Accelerate backup and recovery cycles
- Reduce risk and exposure due to data loss
- Protect against equipment failures, disasters, human error, ransomware and malware

for proactively identifying and organizing sensitive data, and Collect to Review (CTR) for streamlining eDiscovery efforts and accelerating early case assessments.

AIA lets you quickly uncover, classify and manage data stored on Wasabi or other storage platforms based on administratively defined business rules. You can institute granular policies to purge, hold in place or archive data to satisfy regulatory requirements. The tool employs machine learning and data modeling, helping you easily identify and safeguard protected data while conserving storage capacity. Engineered for optimal performance, AIA can scan hundreds of file types with minimal system impact.

CTR streamlines data discovery and management from collection to review. The tool reduces the time and effort required to isolate relevant data, leading to leaner collections, faster early case assessments and more timely responses to litigation events. CTR ingests and filters data at a rate of 20,000 files per minute for unmatched time savings and efficiency.
