

# Easy and Economical Hybrid Storage with Wasabi and StarWind

## Use Wasabi Hot Cloud Storage for your On-Premises Applications

Wasabi has partnered with StarWind to deliver a hybrid storage solution that lets you easily integrate your existing on-premises storage infrastructure, applications and data protection solutions with Wasabi hot cloud storage for ultimate flexibility, simplicity and cost savings.

Wasabi hot cloud storage is incredibly cost-effective and fast cloud object storage for any purpose. StarWind Storage Gateway for Wasabi connects your on-premises applications to Wasabi using standard storage protocols like iSCSI, providing economical and reliable storage for files, volumes and virtual tapes. You can use the joint solution for backup and archival, disaster recovery, cloud data processing, storage tiering and data migration.

## Wasabi Hot Cloud Storage Delivers Breakthrough Economics and Performance

Wasabi hot cloud storage is the industry's most affordable and highest-performing cloud storage service. Wasabi is 80% cheaper and faster than alternative cloud storage services like Amazon S3.

Specifically conceived to make cloud storage a commonplace utility like electricity, Wasabi hot cloud storage is easy to understand, easy to order and incredibly cost-effective to scale. With Wasabi there are no confusing cloud storage tiers to decipher and no complicated fee structures to decode. A highly parallelized system architecture delivers breakthrough performance, so you can rapidly move large datasets in and out of the cloud.

Engineered for extreme data integrity and security, Wasabi provides eleven 9s object durability and supports configurable data immutability to protect against accidental deletions, ransomware and viruses, and to ensure regulatory compliance.

## StarWind Storage Gateway Extends On-Premises Storage Infrastructure to the Cloud

StarWind Storage Gateway integrates on-premises applications and storage infrastructure with Wasabi helping you protect and extend previous investments. Built-in deduplication and compression features conserve disk space, optimize WAN utilization and accelerate data replication and recovery functions. And automated data backup and archive capabilities eliminate the hassles and delays of shipping tapes offsite, while preserving your existing data protection systems and practices.

## KEY FEATURES

- Affordable primary storage for cloud or on-prem workloads
- Economical and reliable secondary storage for backup and recovery
- Durable storage for archival and compliance
- Automated replication and tiering

## BENEFITS

- Slash storage cost and complexity
- Protect and extend previous investments
- Align storage costs with data value
- Reduce risk and exposure due to data loss

StarWind Storage Gateway is a Veeam-Ready solution and seamlessly integrates into any existing Veeam-protected IT infrastructure without the need for dedicated software. You can easily manage all your backups using an easy and informative management interface. Recovery is done in just a few clicks: locate the desired backup in the Veeam Console and press “Restore.” StarWind Storage Gateway will immediately download your backup in a secure virtual tape container from Wasabi to the local storage and present it to the backup server. Last but not least, data security is improved since StarWind Virtual Tape Library format is ransomware-resilient by design.

## Versatile Solution Supports Many Use Cases

The integrated solution from Wasabi and StarWind lets you combine on-site and cloud-based resources to create an infinitely scalable and instantly accessible hybrid storage pool. The joint solution delivers unmatched economics and simplicity, and supports a wide variety of use cases:

- Use Wasabi hot cloud storage for low-cost and fast primary storage for on-premises or cloud-based workloads, or for storing infrequently accessed enterprise application data.
- Use Wasabi hot cloud storage for cost-effective secondary storage for backup, for disaster recovery in the cloud, or for data migration initiatives.
- Use Wasabi hot cloud storage for affordable and reliable archival storage for compliance and long-term data retention.

## Next Steps

- **CONTACT WASABI TODAY.** Learn more about our price, performance and protection benefits.
- **TRY WASABI FOR FREE.** Get up to 1 TB for 30 days.
- Visit [StarWind](#) to learn more about the StarWind Storage Gateway.

### ABOUT WASABI

Wasabi is the hot cloud storage company delivering disruptive storage technology that is 1/5th the price of Amazon S3 and faster than the competition with no fees for egress or API requests. Unlike first generation cloud vendors, Wasabi focuses solely on providing the world's best cloud storage platform. Created by Carbonite co-founders and cloud storage pioneers David Friend and Jeff Flowers, Wasabi is on a mission to commoditize the storage industry. Wasabi is a privately held company based in Boston, MA.
