

# Wasabi Custom Cloud Console

Introducing Custom Cloud Console (CCC) - the ultimate solution to conquer the challenges of multi-tenant cloud storage. We understand the complexities involved, from data separation to billing, and we've crafted CCC to deliver a seamless and fully branded experience. Say goodbye to lengthy development cycles and high maintenance costs; CCC offers a hosted web-based multi-tenant cloud storage solution, that can be white-labeled, empowering businesses to personalize their cloud storage platform effortlessly. With CCC, Wasabi Partners and MSPs can elevate their brand, accelerate time to market, and provide customers with an exceptional experience they'll remember. Discover the power of CCC and transform your cloud storage into a competitive advantage.

## Overview

Introducing the Custom Cloud Console (CCC), a game-changing hosted web-based multi-tenant cloud storage solution designed to address the challenges of multi-tenant cloud storage. We understand the complexities that come with data separation, access management, and invoicing in cloud storage environments, and that's why we've developed CCC to simplify your experience.

CCC offers a unique solution by enabling businesses to effortlessly white-label the platform as their own. This means Wasabi Partners can customize the CCC interface with their domain name, logo, and color scheme, creating a fully branded experience for their sub-account users. By leveraging the power of the Wasabi Account Control Manager (WACM) and Wasabi Hot Cloud Storage (S3 Compatible), CCC ensures a robust, customer brandable storage platform.

One of the standout advantages of CCC is its ability to save valuable time and resources. Say goodbye to long development cycles and the hassle of integrating various SaaS products. With CCC, businesses can accelerate their time to market, focus on their core competencies, and provide an exceptional product and customer experience under their own brand umbrella.

## FOUNDATIONAL LAUNCH FEATURE SUITE

### Customized branding

- Login Screen – Logo and site name
- Logo and custom colors
- White label URL support

With its seamless multi-tenant capabilities, efficient white-labeling options, and integration with industry-leading technologies, CCC is the go-to choice for businesses aiming to excel in the competitive cloud storage landscape. Embrace CCC today and unlock the full potential of your cloud storage platform with minimal effort and maximum impact.

## Features and Benefits

- 1. Seamless Multi-Tenant Cloud Storage:** CCC offers a seamless multi-tenant cloud storage solution, addressing the challenges of data separation, account usage access, and invoicing/billing. With CCC's intuitive interface, users can effortlessly manage their data while ensuring privacy and security for each tenant.
- 2. Accelerated Time to Market:** By utilizing the Custom Cloud Console, businesses can skip the lengthy development and integration process typically associated with internal tools or multiple SaaS products. This significantly speeds up their time to market, allowing them to focus on core business activities and gain a competitive edge.
- 3. Cost-Effective White-Labeling:** CCC provides a cost-effective white-labeling option, empowering Wasabi Partners and Customers to customize the platform as their own. With the ability to incorporate their logos, colors, and URLs, businesses can enhance their brand presence and deliver a personalized customer experience without incurring high maintenance costs.

### ABOUT WASABI

Wasabi provides simple, predictable and affordable hot cloud storage for businesses all over the world. It enables organizations to store and instantly access an unlimited amount of data at 1/5th the price of the competition with no complex tiers or unpredictable egress fees. Trusted by tens of thousands of customers worldwide, Wasabi has been recognized as one of technology's fastest-growing and most visionary companies. Created by Carbonite co-founders and cloud storage pioneers David Friend and Jeff Flowers, Wasabi is a privately held company based in Boston.
