

Macrium Reflect and Site Manager Offers Flexible Security

Macrium's Reflect 8 engine provides the best image-based backup and recovery solution on the market. Building on this powerful software, Site Manager 8 gives users full control over the backup and restoration of every connected workstation in your network. Customers who use Site Manager to automatically synchronize all backups stored in Wasabi's cloud are expertly combining highly adaptable data protection with superior cost management.

Reflect 8 and Site Manager's power truly comes into focus in environments our competitors deem too difficult to support. Isolated or offline networks? No problem. Legacy versions of Windows OS? Supported. Multiple locations with hundreds, or even thousands of computers? Macrium's Multi-Site is here to help. And with customizable group and tagging abilities, you can dynamically sort and manage computers with ease, all from one screen.

Wasabi Hot Cloud Storage Delivers Breakthrough Economics and Performance

Wasabi is the hot cloud storage company delivering low-cost, fast, and reliable cloud storage on-demand. Wasabi's solution is 80% less expensive and is faster than first-generation cloud vendors. Wasabi hot cloud storage is designed with eleven nines (99.999999999%) of object durability and data immutability that guarantees stored objects cannot be deleted or modified by anyone. Not only is Wasabi 80% less expensive to store data than traditional cloud providers, but there are also no fees for egress or API requests. Wasabi keeps all data "hot" so it can be accessed in milliseconds. All Macrium and Wasabi customers can treat their data as hot data, so they can shorten upload windows and quickly access their data for faster restore times.

KEY FEATURES

- Industry leading image-based backup and recovery
- Flexible and scalable, from 1 to 10,000+ workstations
- Customizable event-driven triggers

BENEFITS

- Streamline IT departments with central management and swift recovery
- Dynamically filter by group and tag for complete control
- Reduce cloud storage cost and complexity

ABOUT WASABI

Wasabi provides simple, predictable and affordable hot cloud storage for businesses all over the world. It enables organizations to store and instantly access an unlimited amount of data at 1/5th the price of the competition with no complex tiers or unpredictable egress fees. Trusted by tens of thousands of customers worldwide, Wasabi has been recognized as one of technology's fastest-growing and most visionary companies. Created by Carbonite co-founders and cloud storage pioneers David Friend and Jeff Flowers, Wasabi is a privately held company based in Boston.
