**BUILT  
SYSTEMS**

# **BUILT** FOR PEOPLE.

Are you expanding your building, looking to change layouts for efficiencies, or starting a new manufacturing business?

BUILT Systems is here to be your one-stop-shop to outfit your production floor. Our team designed each product determined to solve for every considerable objective as you plan.

Why source your manufacturing needs from multiple companies when BUILT Systems can provide all you need in one place? Top-of-the-line quality for modular, versatile, and durable products shipped fully-assembled or knocked down. Take a look at what we can offer.

## **WORKSTATIONS**

Light- to heavy-duty height-adjustable workstations constructed with durable components. Start with a base and add your accessories, or choose from pre-configured setups made for specific tasks.

## **MACHINE BASES**

Sturdy, fully-welded and modular machine bases with added height-adjustability for maximum user well-being. These bases lift from 800 to 6500 lbs and support a wide variety of industries.

## **WELDING PRODUCTS**

Electric height adjustable weld tables with anti-corrosion, anti-splatter worksurfaces. For complete, efficient 5S methodology implementation, pair a weld table with a BUILT Systems Mobile Tool Cart.

**BUILT FOR QUALITY**

**BUILT FOR PRODUCTIVITY**

**BUILT FOR MODULARITY**

**BUILT FOR DURABILITY**

**BUILT FOR YOU**

## ORGANIZATIONAL PRODUCTS

Industrial-grade products perfect for increasing the organization and communication in manufacturing, shipping, and assembly settings.

## MATERIAL HANDLING PRODUCTS

Material Handling Products for innovative and reliable part transportation in a LEAN manufacturing environment.

## smartsolutions PRODUCTS

SmartSolutions combine trusted BUILT quality, durability, and modularity with new technology and automation.
