Basware E-Invoice Sending to Custom Receiver

Simplify Operations, Spend Smarter.

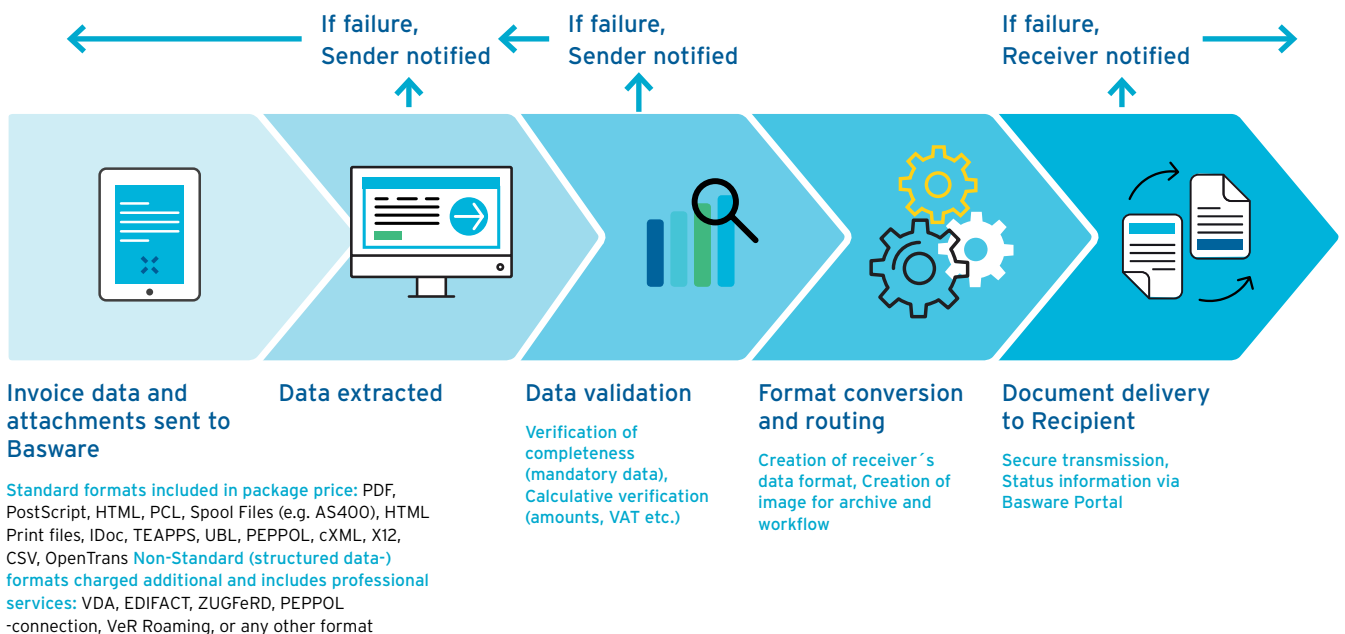

BASWARE E-INVOICE SENDING TO CUSTOM RECEIVER: ONE SOLUTION. ENDLESS VALUE.

Basware has implemented a service which makes e-invoice management easy and efficient. You just need to send your invoice data in almost any format to our service. We will validate, convert and deliver your invoice directly to your customer, in their preferred format and delivery channel.

As an alternative to the standard (print) formats also structured data such as EDIFACT can be send. Advantage if you already have a working interface

for exchanging data which should be re-used (instead of adding an additional interface to existing software landscape). Basware converts

these records to the desired receiver format. Here the connection costs are usually between 500 and 2,500 Euros depending on type of interface needed.

SEND ALL INVOICES TO ANY RECIPIENT WITH ONE SOLUTION

- > You can deliver invoices to all your customers, regardless of their size, type, or location. They will receive invoices in the formats they want, requiring no operational change on your customer side.
- > If your customer can't receive e-invoices, we can send them as a PDF to their email. Just add your customer's email address in the invoice address field.
- > We support X-Rechnung and ZUGFeRD formats for German Public Sector Receivers and act as a certified PEPPOL access point.

GAIN 100% VISIBILITY INTO YOUR ENTIRE INVOICE DELIVERY PROCESS

- > Basware Portal monitoring tool enables you to track the status of invoices being processed by Basware.
