

GASKET REMOVAL/INSTALLATION

With the eyewear facing you, grasp the edges of the gasket where the venting is and pull away from the frame.

To install it, line up the edges of the gasket with the frame and press the two together until you hear a click.

MAINTENANCE: Wiley X lenses are specially coated to offer superior abrasion resistance. To prolong the life and the top performance level of your lenses, please follow the instructions below:

- Only clean the lenses with water.
- Do not use solvents or special cleaners.
- Use the microfiber cleaning cloth or microfiber bag to gently wipe clean.
- Never use paper products to clean and avoid wiping the lens surface when it is dry and/or dirty, as this may potentially cause scratches.

WARNING: Wiley X eyewear is thoroughly tested. However, impact resistant eyewear is not unbreakable and does not provide unlimited eye protection under all circum-

stances and conditions. Misused, abused, scratched, and/or damaged eyewear can reduce the impact protection (and void your warranty). Dirty and/or wet eyewear can impair the vision and reduce the safety (resulting in personal injury and/or property damage). Keep your Wiley X eyewear clean as indicated above. Store your Wiley X eyewear in the provided storage solution (microfiber bag or case) to prolong the life of the lenses. Most of all, take all appropriate precautions when wearing your Wiley X eyewear during hazardous and/or dangerous activities and conditions. Wiley X, Inc. is not responsible for personal injury, property damage, or losses sustained while using Wiley X products.

INSTRUCTIONS

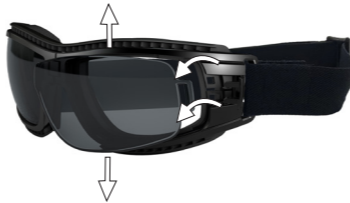

LENS REMOVAL

1. Unlock the frame by simultaneously pressing up and down on the back of the lens retaining mechanism with your thumb.

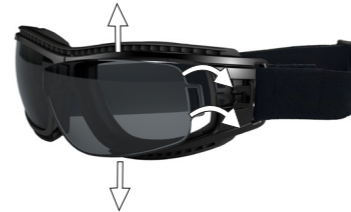

2. Open the lens retaining mechanism fully.

3. Gently pull on the frame around the lens while pressing on the back of the lens to pop it out of the frame.

LENS INSTALLATION

1. Align the lens with the opening in the frame. Gently pull on the frame around the lens while pushing the lens in place with your thumbs.

2. Once you hear the lens click into place, press down on the lens retaining mechanism to secure it.
