SPRING 2026 LAUNCH

The WX Alpine isn't just built for performance—it's built to take over. Aggressive by design, this frame means business in the harshest conditions. The low-profile polymer frame is lightweight but refuses to break, and semi-hooked temples grip like a clenched fist, locking in when the action kicks up. Rubber nose pads and temple tips keep it glued to your face, whether you're tearing through terrain or grinding through the mission. And when the heat rises, Venturi Suction technology optimizes airflow to prevent fogging during intense activities like cycling, running, or tactical operations.

1 PURPOSE-BUILT DURABLE FRAME DESIGN

Every line of the bold, aggressive frame is engineered for strength and function—delivering uncompromising protection and performance in the most demanding conditions.

2 OPTIMIZED FRAME VENTILATION

This frame features integrated Venturi channels that draw air through the interior, optimizing airflow to minimize fogging and maintain clear vision during high-intensity activity.

3 RUBBER TEMPLES AND NOSEPIECE WITH HYDROPHILIC PROPERTIES

Ensures a secure, no-slip fit that gets even better with sweat or moisture—ideal for active or high-intensity use.

4 EXTRA THICK 2.5MM SHATTERPROOF LENSES

All lenses are tested and certified to the MIL-PRF-32432A Ballistic Impact Standard (.15 cal Vo), ensuring military-grade impact resistance. Designed for extreme durability, they resist scratching, shield against debris, and provide full UV protection.

SPECIFICATIONS

WX ALPINE

FIT

FEATURES

- Rx Ready
- Meets ANSI Z87.1+ Impact Protection/Optical Standards
- Meets MIL-PRF-32432A Ballistic Impact Standard (.15 cal Vo)
- 8-Base Lenses, High-Wrap Frames
- UVA/UVB Light Blocking
- Super-Tough Triloid Nylon Frame
- Dual-Injected rubber nose pads and temple tips
- Flow-Ventilation Technology
- Assembled in America

ADDITIONAL ACCESSORIES

- Black Zippered Case (DN800L)
- Microfiber Bag (DN900)

ANSI HIGH-MASS IMPACT TEST

Wiley X ANSI Z87.1+ frames and lenses must withstand the impact of a 1.1 lb projectile dropped from a height of 50" to ensure your eyes are protected from unexpected blunt force impacts.

ANSI HIGH-VELOCITY IMPACT TEST

Wiley X ANSI Z87.1+ frames and lenses must withstand the impact of a .25" diameter steel ball. For spectacles, the projectile must be traveling 150-160 fps and for goggles, the projectile must be traveling at 250-260 fps.

VO BALLISTIC TESTING

All WX Alpine styles meet U.S. military standards for ballistic eye protection. For spectacles the projectile must be traveling 700-725 fps.

FLOW-VENTILATION TECHNOLOGY

Designed to work as hard as you do, the WX Alpine channels air through the frame to sweep away heat and moisture, venting it out the temples for clear, fog-free performance in every environment.
