WILEY X

A LEGACY OF PROTECTION SINCE 1987

To our valued partners,

As a veteran-founded, second-generation American company, Wiley X remains committed to supporting and protecting those who serve, work and play in life’s harshest environments. My brother, Myles and I, continue to build on our father’s legacy while leading the brand to innovate new eyewear products without compromising protection.

This year we’re proud to announce the launch of our first Made in America product. It’s just the beginning of our strategy to transition all our products to American manufacturing. It’s a bold investment that we believe benefits our customers, our partners, American workers and the communities we serve.

We look forward to another exciting year with all of you.

Sincerely,

Dan Freeman

Dan Freeman, CEO and Co-Owner

LENS TECHNOLOGY

AMPLIFIED VISUAL PERFORMANCE

CAPTIVATE™ is a premium lens technology meticulously engineered to filter light and elevate visual performance through enhanced colors, superior contrast , and increased clarity. When combined with industry-leading protection and durability, CAPTIVATE allows you to perform with confidence in any environment.

CAPTIVATE™ LENS BENEFITS

SHARPER DETAIL

Reveals features in your environment normally missed by the naked eye.

INCREASED CONTRAST

Improves depth perception in conditions where light and shadows distort vision.

ENHANCED COLOR

Provides color separation to make surroundings appear more vivid and vibrant.

WITH CAPTIVATE™ LENSES

WITHOUT CAPTIVATE™ LENSES

LENS ANATOMY

CAPTIVATE™ LENS OPTIONS

COPPER BASE LENSES

CAPTIVATE™ BRONZE MIRROR / POLARIZED BRONZE MIRROR
Provides tint for lowlight activities.
Light Transmission": 15%*

CAPTIVATE™ POLARIZED GREEN MIRROR
High-contrast for outdoors.
Light Transmission: 12%*

CAPTIVATE™ POLARIZED COPPER
Vivid color for variable light conditions.
Light Transmission: 17%*

GREY BASE LENSES

CAPTIVATE™ POLARIZED BLUE MIRROR
Reduces bright glare on the water.
Light Transmission: 11%*

CAPTIVATE™ RED MIRROR / POLARIZED RED MIRROR
Improved depth perception in bright sun. Keeps colors true.
Light Transmission: 15%*

CAPTIVATE™ GREY / POLARIZED GREY
Even contrast for everyday activities.
Light Transmission: 13%*

CAPTIVATE™ BLACK MIRROR / POLARIZED BLACK MIRROR
Enhances detail with a natural view of colors.
Light Transmission: 11%*

SOLID BASE LENSES

CAPTIVATE™ CLEAR
Enhances color perception and provides maximum light transmission. 78%*

CAPTIVATE™ TUNGSTEN MIRROR / POLARIZED TUNGSTEN MIRROR
Provides optimal vision in all lighting conditions.
Light Transmission: 10%*

STANDARD LENS OPTIONS

LENS OPTIONS

SMOKE GREY
Reduces glare in bright light while preserving a natural visual experience.
Light Transmission: 15%

SILVER FLASH / POLARIZED SILVER FLASH
Great for bright and sunny conditions across all environments.
Light Transmission: 15%

YELLOW
Increased contrast in extremely low-light/hazy conditions.
Light Transmission: 82%*

LIGHT RUST
Enhances contrast in medium to low-light conditions.
Light Transmission: 52%*

VERMILLION
Best for medium to low-light conditions. Sharpens contrast and brightens targets.
Light Transmission: 45%*

CLEAR
Maximum light transmission. See precise color values. Hazy or overcast, dusk/dawn conditions.
Light Transmission: 89%*

Polarized and Non-Polarized CAPTIVATE™ Lens Options Available

**Transmittance values are approximate within +\-3%*

PROTECTION

FRAME TECHNOLOGY

Protection is not just a feature of our products, it is what defines us and sets us apart from others in the industry. Our eyewear is tested to meet national and international standards, ensuring every pair of eyewear we produce surpasses the highest ratings possible for safety and optics.

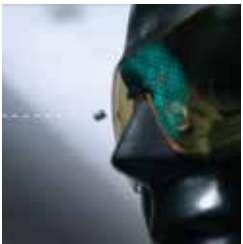

ANSI HIGH-MASS IMPACT TEST

Wiley X ANSI Z87.1+ frames and lenses must withstand the impact of a 1.1 lb projectile dropped from a height of 50" to ensure your eyes are protected from unexpected blunt force impacts.

ANSI HIGH-VELOCITY IMPACT TEST

Wiley X ANSI Z87.1+ frames and lenses must withstand the impact of a .25" diameter steel ball. For spectacles, the projectile must be traveling 150-160 fps and for goggles, the projectile must be traveling at 250-260 fps.

V0 BALLISTICS

All Tactical items meet the ballistic protection levels of MIL-PRF-32432A; .15 V0 700-725fps for spectacle and .22 580-590 for goggles. Wiley X tactical models that are part of the Authorized Protective Eyewear List (APEL) are tested to the Alpha version of the V0 ballistics standard with a spectacle frame and lens being impacted with a .15 caliber projectile traveling 700-725 fps, or a goggle frame and lens with a .22 caliber projectile traveling 580-590 fps. Both tests are meant to simulate shrapnel encountered on the battlefield.

YOUTH FORCE® ASTM F803 STANDARD

All Youth Force™ Sports Protective Eyewear models are tested to ensure that they meet the ASTM F803 standards. To pass the High-Velocity Impact Resistance Test, the eyewear must withstand projectiles sized from 40 mm to 65.1 mm fired at a 90mph. Youth Force™ styles are suitable for Soccer, Basketball, Racquetball, Squash, Badminton, Paddle Ball, Tennis and Handball.

ANSI FRAME AND LENS MARKINGS EXPLAINED

Our frames and lenses include several markings that indicate specific safety ratings as determined by the American National Standards Institute (ANSI). This guarantees your Wiley x eyewear has been put through rigorous testing to ensure they'll protect your eyes from a projectile or other foreign.

- Z87** Designation of the standard.
- 2** The frames can be fitted with a prescription lens, which is the case with most Wiley X styles.
- +** The eyewear frame and lenses have been tested to the high-velocity and high-mass impact requirements of ANSI Z87.1+ safety standards.
- S** The lens is a filter or a shaded lens (not clear).
- V** The lens is variable-tint photochromic (light adjusting).

In order to meet the demands of harsh environments and ensure optimal performance, many of our products are designed with additional performance features. These features are specifically tailored to withstand extreme conditions and provide enhanced functionality in any environment.

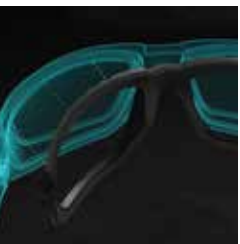

CLICK A.I.R. (AIR INTAKE REGULATOR) GASKETS

CLICK A.I.R. Gaskets are designed to shield your eyes from harmful debris, while allowing you the freedom to customize airflow through the gasket to prevent fogging. Push down on the top of the gasket above the nose bridge to open and increase airflow. Click again to lock it down for activities where additional airflow isn't needed. Available with the WX Ozone.

DYNAMIC VENTILATION

Our Dynamic Ventilation system works with the Removable Facial Cavity™ seal, allowing you to control airflow and reduce fogging. Side vents open to allow air to flow in and behind the lenses to clear condensation. Close the side vents to stop airflow. This technology is currently available with the WX Breach.

REMOVABLE FACIAL CAVITY™ SEALS

Fine dust and pollen, as well as wind, can cause long-term eye irritation, such as Dry Eye Syndrome. Peripheral light can also diminish optical clarity. Wiley X's removable soft foam Facial Cavity™ Seals block out even the finest irritants and peripheral light, protecting the eyes and allowing polarized lenses to perform at peak levels. Included with all Climate Control models.

ANSI Z87.1+ SIDE SHIELDS

All Active 6 and Worksight models come with removable and permanent side shield options to meet ANSI Z87.1+ compliance.

SUSTAINABLE FRAME MATERIALS

Our latest frame styles are made of bio-based raw materials that are lightweight, flexible, resistant to heat, UV resistant, and BPA-free. All performance characteristics make this material a superior, sustainable choice for fit, function, and performance while providing the impact protection we require for all of our products.

WILEY X AUTHENTIC PRESCRIPTIONS

As a company that specializes in high-wrap sport and safety eyewear, it’s imperative that we provide the same clarity and protection to prescription-lens wearers as we do to those without prescription requirements. We’ve spent decades innovating and refining our technology to ensure that every pair of prescription glasses we build inspires confidence in everyone who wears them.

THE WILEY X DIFFERENCE

Through the Wiley X Authentic Prescription Program, we’re able to provide our customers with:

- The highest Rx ranges in the industry for safety and sport-wrapped frames (-10/+6 in our Active 6 series and up to -7/+5 in most wrapped styles).
- Precise prescriptions for high-wrap frames.
- CAPTIVATE™ color enhancing lens technology.
- A full service lab with an in-house coating facility.
- A dedicated Rx support team.

COMPARE THE DIFFERENCE

This is a side-by-side comparison of the same Wiley X frame with an authentic Wiley X prescription versus one without. You’ll notice the other lab’s frame has splayed-out temples and a thicker lens protruding out of both sides. Ours has a thinner lens and no frame distortion, providing a more comfortable and aesthetically pleasing pair of eyewear.

ANOTHER LAB'S RX

WILEY X AUTHENTIC PRESCRIPTION

DIGIFORCE™ DIGITAL LENSES

Digiforce™ is Wiley X’s proprietary technology which takes into account frame fitting position, prescription, vertex distance, pantoscopic tilt and eye movement patterns to create the most accurate prescription possible in our high wrap frames.

BENEFITS OF DIGIFORCE™ LENSES:

- 10 times more accurate than conventional surfacing.
- Provides the patient with an exact prescription, rather than rounding to the nearest setting in conventional lenses.
- Maximizes field of view with edge-to-edge clarity.
- Wrap compensation allows us to customize a patient’s prescription specific to their lifestyle and vision needs.
- Easier patient adaptation to high-wrap frames.

LENS TREATMENTS:

- Anti-Scratch Coating
- Permanent Anti-Fog Coating
- Standard Anti-Fog Coating
- Anti-Reflective Coating
- WX Blue Anti-Reflective

LENS OPTIONS:

- CAPTIVATE™ Polarized
- Polarized
- Non-Polarized
- Photochromic

DIGITAL EDGE THINNING

Our proprietary Digiforce Digital Edge Thinning technology is offered exclusively through Wiley X and allows for a high prescription with the thinnest lens necessary to still meet safety standards.

WHY WE USE IT

Digital Edge Thinning was created to accommodate high prescriptions in wrap around sport and safety glasses while still providing an aesthetically pleasing pair of eyewear with minimal distortion.

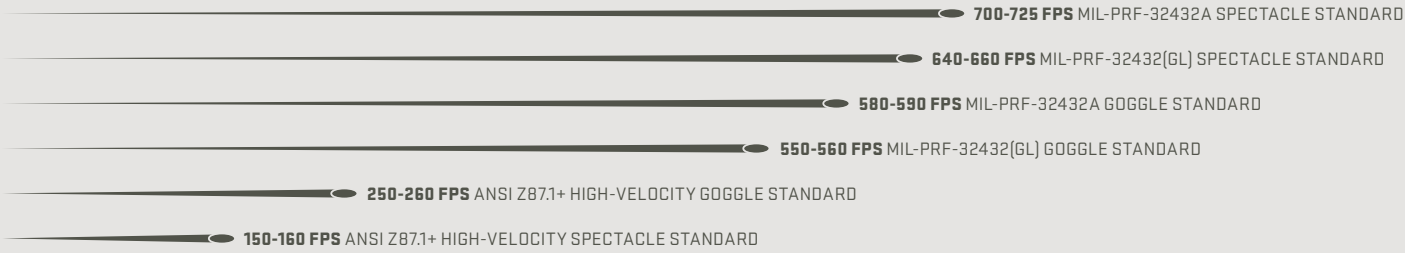

WHAT IT LOOKS LIKE

Digital Edge Thinning mirrors the frame shape by concentrating the optics centrally. This creates a slight plano area on the outer edge of each lens.

PRODUCT WARRANTY

NON-PRESCRIPTION WILEY X, INC., EYEWEAR

A lifetime warranty covering all manufacturing defects in material and workmanship.

NON-PRESCRIPTION JOHN DEERE® AND DVX™ EYEWEAR

Warranted against defects in materials or workmanship for a maximum period of 1 year. (John Deere® warranty applies to USA and Canada only).

PHOTOCHROMIC (LIGHT ADJUSTING™) LENSES

Warranted against defects in materials or workmanship for a maximum period of 18 months (proof of purchase for Photochromic Light Adjusting™ lenses is required).

GLOVES

Warranted to be free of manufacturing defects in material or workmanship for a maximum period of 2 years.

SCOPE OF COVERAGE

Wiley X will replace covered items at the sole discretion of Wiley X, as needed and as available (identical or equivalent style) at no charge. Out of warranty items may be replaced, or destroyed, at the option and sole expense of the purchaser.

EXCLUSIONS

This product warranty and prescription warranty below does not extend to and excludes:

- a) All Wiley X products purchased through any non-authorized 3rd party websites, dealers, or labs.
- b) Damage resulting from normal wear and tear (i.e., scratched lenses).
- c) Damage resulting from abuse, misuse, tampering, customer modification, exposure to harmful substances, elements, or conditions.
- d) Lost or stolen item.

WX PRESCRIPTION WARRANTY

RX WARRANTY

Prescription orders processed through Wiley X, Inc. will have a two (2) year warranty from the date of purchase on frames and lenses deemed by Wiley X, Inc. to have manufacturing defects. Prescriptions filled by outdoor labs will void all Wiley X, Inc. frame and lens warranties. Prescription frame and lens warranties must be handled through the local retailer / dispensing optician from which they were originally purchased.

CAPTIVATE™ RX WARRANTY

Wiley X, Inc. will provide a one (1) time scratch redo on CAPTIVATE lenses that covers against basic surface scratches due to normal wear, along with crazing and peeling for two (2) years from the date of purchases. Scratches caused by improper care or abuse are not covered by this warranty. The customer will receive eyewear in the identical form (same frame, lenses, prescription, etc.)

SCRATCH/COATING RX WARRANTY

Wiley X, Inc. will provide a one (1) time scratch redo for lenses with frontal surface scratches due to normal wear for one (1) year from the date of purchase. If a coating was purchased (anti-reflective, anti-scratch, anti-fog, or a mirror) the warranty is extended to a one (1) time redo within two (2) years from the date of purchase. The customer will receive eyewear in the identical form (same frame, lenses, prescription, etc.)

DOCTOR REMAKE

A one (1) time doctor remake on Wiley X, Inc. made prescription lenses is permitted within a forty-five (45) day period from the original order date. The dealer will be charged in full for the remake then will subsequently receive a credit when the original prescription glasses are returned to the Wiley X, Inc. Prescription Department. Original orders must be returned within thirty (30) days of the remake order. All doctor remakes will be billed a \$10.00 shipping fee.

RX CHANGES/CANCELED ORDERS

If the lenses are not in process, prescription changes and order cancellations will be accepted at no charge. Any requests made after a customer order has been put in process will be charged at 50% of the dealer cost.

NON-ADAPTS

Dealer will have forty-five (45) days to return a prescription order that is deemed "non-adapt" by their customer. In this instance, the dealer will receive a full refund on the frame and 50% credit on the RX lenses and coatings. No credit or refund will be issued for non-adapts submitted after forty-five (45) days.

LAB ERRORS

In the event of lab error, prescription lenses will be replaced at no cost within a forty-five (45) day period of the original order date. Redo will be credited upon receipt of original frame and lenses.

PATIENT OWNED FRAME (POF)

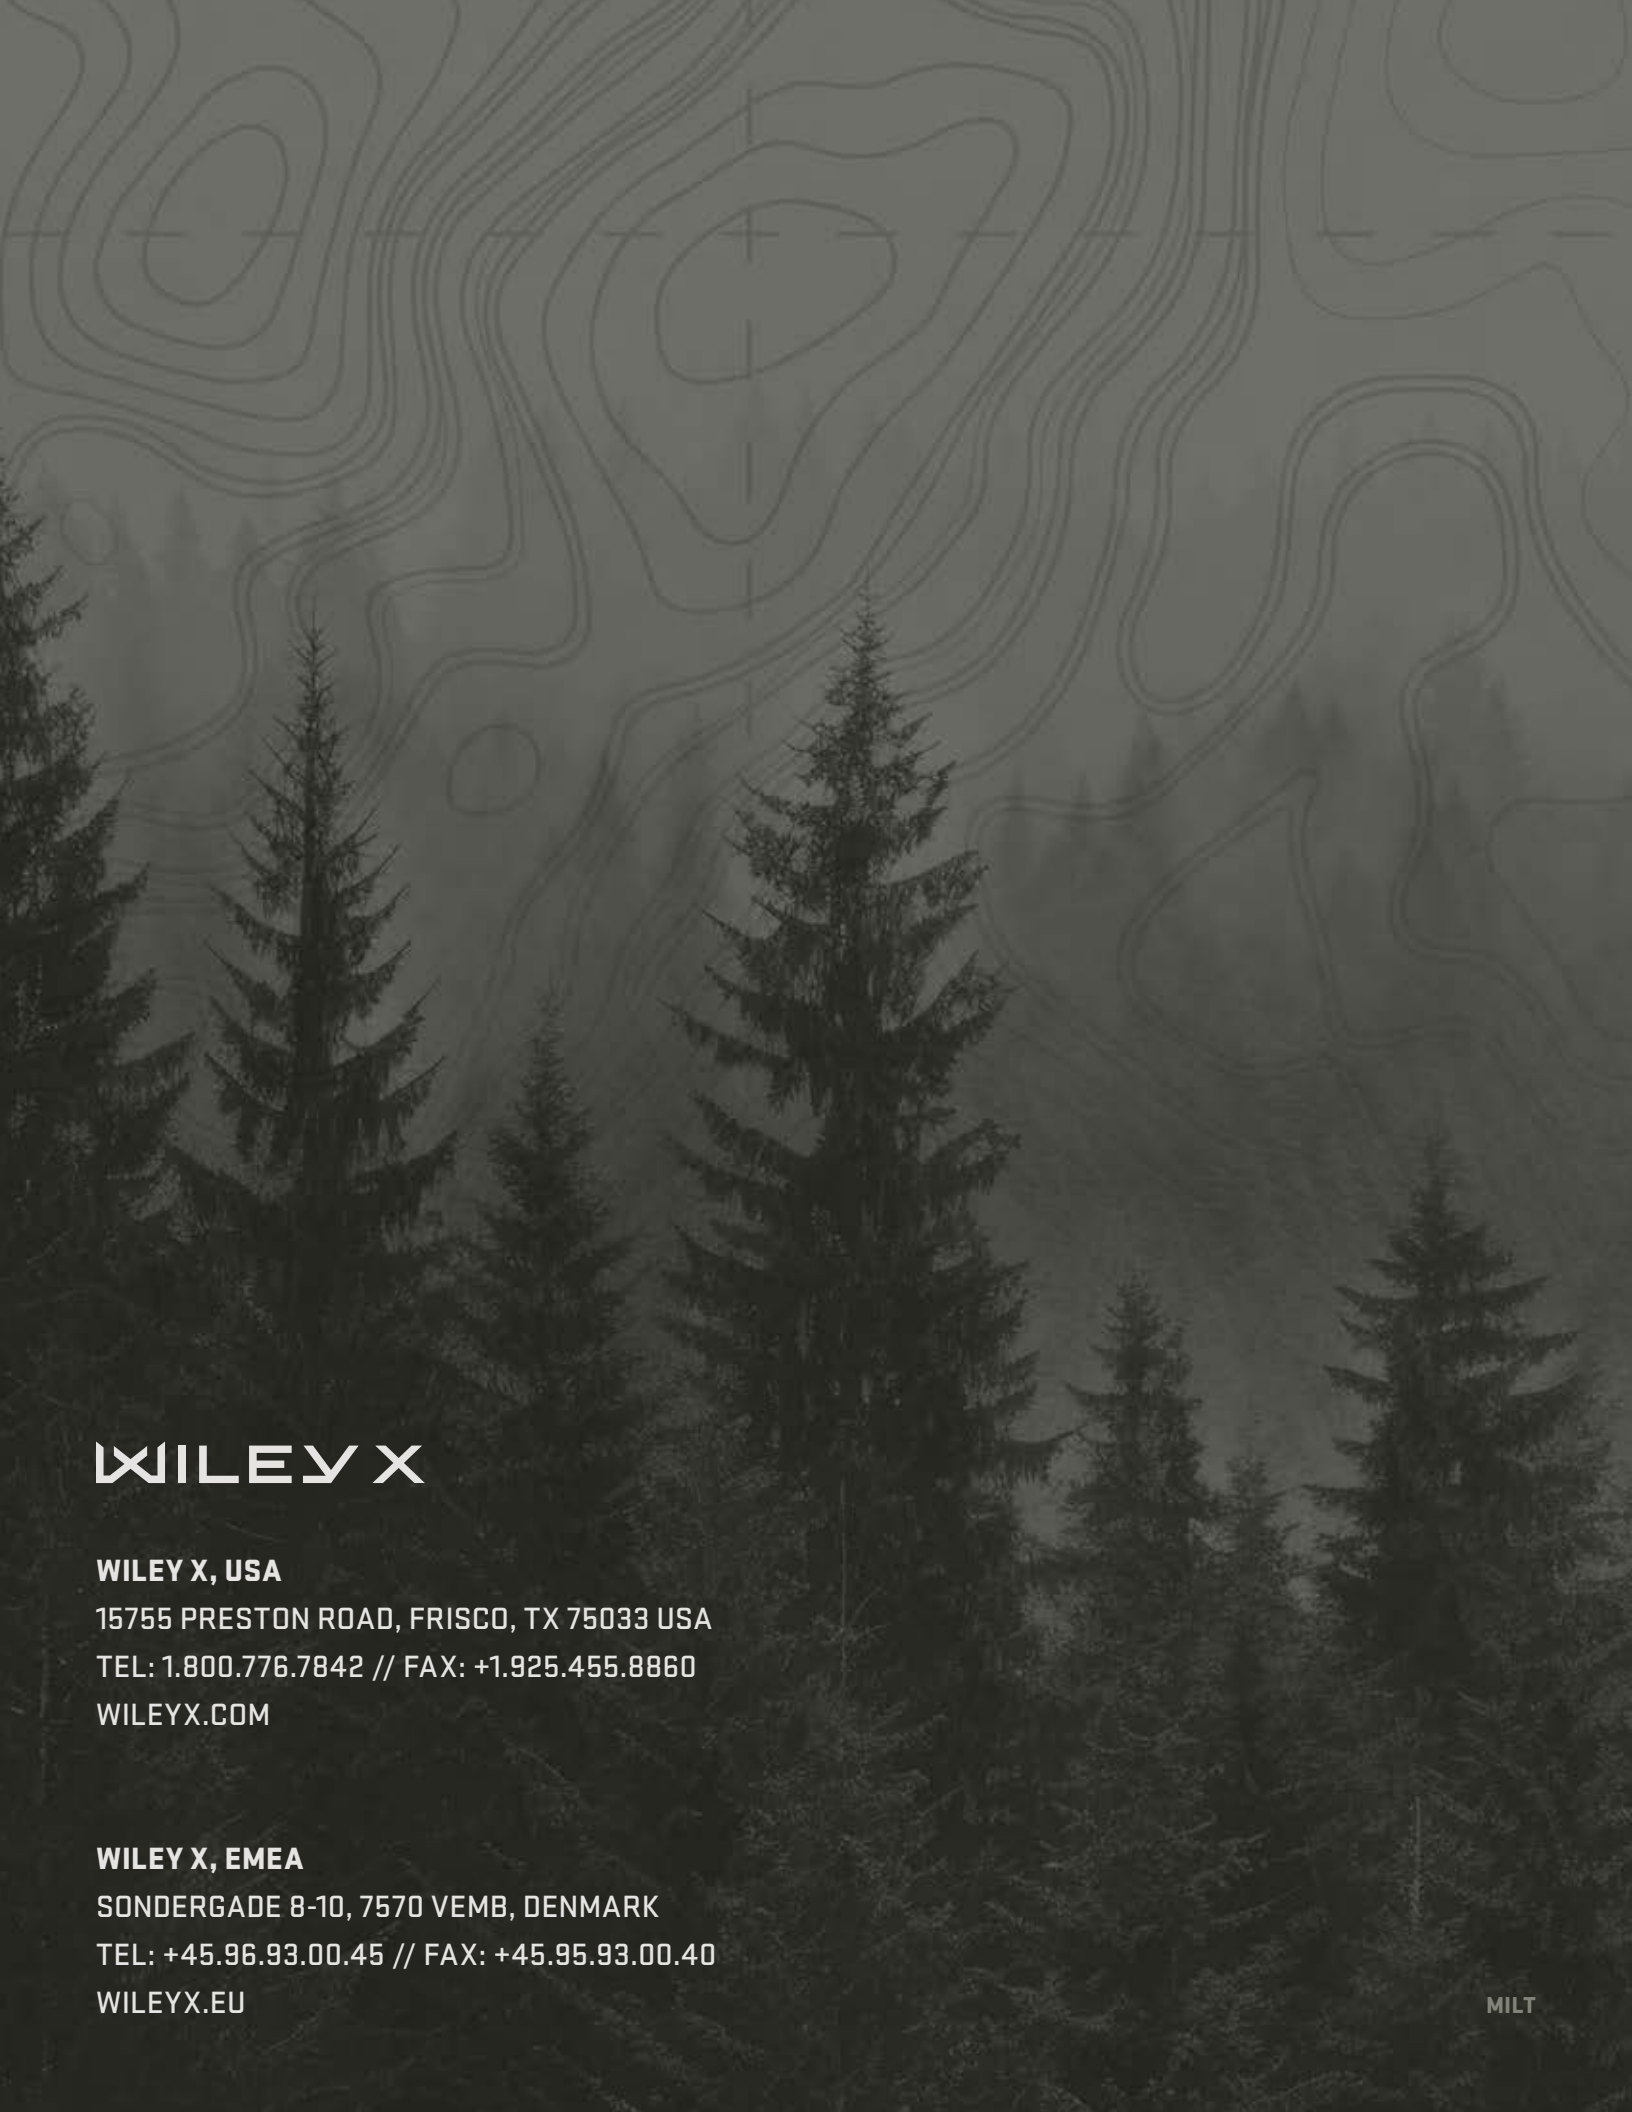

Wiley X, Inc. accepts POF orders, however, frames must pass Wiley X, Inc. quality inspection. Prior to sending the POF, please verify that the prescription and the measurements are within the tolerance of the Wiley X, Inc. RX Frame Parameters. Please remove any existing prescription or non-prescription lenses from the frame prior to shipping. Wiley X, Inc. will not provide any warranty or be held responsible for any lost or damaged lenses on previous prescriptions sent in with a frame.
