

WILEY X HYBRID

CUSTOMIZED PROTECTION AND PERFORMANCE

Our ultra-tough Hybrid gloves are built with a combination of protection and performance features that live up to their name. Constructed of 100% Nomex® knit, with goatskin leather in high-wear areas, the flame-resistant Hybrid offers flexibility without sacrificing durability. A velcro strap at the back of the wrist allows quick adjustability for a snug and secure fit and our patent-pending knuckle protectors are removable for customized protection.

Removable Injected Molded Knuckle Protector
