

WX BREACH 2.5

TACTICAL SERIES

STARTING AT

\$160
MSRP

FALL 2025 LAUNCH

The WX Breach 2.5 is engineered for tactical environments where failure isn't an option. High wrap frames deliver full coverage against impact, wind, and debris, while a removable gasket and Dynamic Ventilation System help prevent fogging in the heat of the moment. Rubberized temples and nose pads lock in a secure, comfortable fit. Available in Regular and XL sizes with interchangeable lenses for adaptable performance.

1 PURPOSE-BUILT DURABLE FRAME DESIGN

Every line of the bold, aggressive frame is engineered for strength and function, delivering uncompromising protection and performance in the most demanding conditions.

2 REMOVABLE FACIAL CAVITY™ SEAL AND A DYNAMIC VENTILATION SYSTEM

While the Removable Facial Cavity™ Seal shields from wind, dust, and airborne debris, the Dynamic Ventilation System allows controlled airflow behind the lenses, preventing heat and moisture buildup that can cause fogging. Together, they ensure your eyes stay protected without compromising visibility, even in the toughest conditions.

3 RUBBER TEMPLE TIPS AND NOSEPIECE WITH HYDROPHILIC PROPERTIES

Ensures a secure, no-slip fit that gets even better with sweat or moisture. Ideal for active or high-intensity use.

4 EXTRA THICK 2.5MM SHATTERPROOF LENSES

Lenses meet military-grade standards for impact protection. They're tough enough to shrug off flying debris, resist scratches, and block 100% of harmful UV rays, delivering crystal clear vision in the harshest conditions, whether you're on the job, in the field, or off the grid.

FIT

FEATURES

- Rx Ready
- ANSI Z87.1+ Impact Protection/Optical Standards
- V0 Ballistic Testing Standard
- 8-Base Lenses, High-Wrap Frames
- UVA/UVB Light Blocking
- Super-Tough Triloid Nylon Frame
- Dual-Injected rubber nose pads and temple tips
- Interchangeable Lenses
- Assembled in America

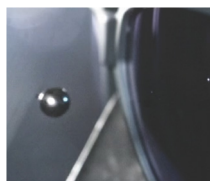

ADDITIONAL ACCESSORIES

- Black Zippered Case (DN800L)
- Microfiber Bag (DN900)
- Black Zippered Case (DN600)
- 2 and 3 Lens Packs

ANSI HIGH-MASS IMPACT TEST

Wiley X ANSI Z87.1 frames and lenses must withstand the impact of a 1.1 lb projectile dropped from a height of 50' to ensure your eyes are protected from unexpected blunt force impacts

ANSI HIGH-VELOCITY IMPACT TEST

Wiley X ANSI Z87.1 frames and lenses must withstand the impact of a .25" diameter steel ball. For spectacles, the projectile must be traveling 150-160 fps and for goggles, the projectile must be traveling at 250-260 fps

V0 BALLISTIC TESTING

WX Breach 2.5 styles meet U.S. military standards for ballistic eye protection. For spectacles the projectile must be traveling 700-725 fps

DYNAMIC VENTILATION

Our Dynamic Ventilation system works with the Removable Facial Cavity seal, allowing you to control airflow and reduce fogging. Side vents open to allow air to flow in and behind the lenses to clear condensation. Close the side vents to stop airflow.

REMOVABLE FACIAL CAVITY™ SEALS

Fine dust and pollen, as well as wind, can cause long-term eye irritation, such as Dry Eye Syndrome. Peripheral light can also diminish optical clarity. Wiley X's removable soft foam Facial Cavity Seals block out even the finest irritants and peripheral light, protecting the eyes and allowing polarized lenses to perform at peak levels.
