## *GO* / *CONFIDENTLY*

U.S. Veteran Myles Freeman Sr. founded Wiley X with a focused determination to create the world's best protective gear for those who protect our country.

For over 35 years, we've remained a family-owned company that continues to provide premium protective products to military and first responders while expanding across consumer categories such as outdoor sporting, fishing, and hunting. Our dedication to protection is how we ensure our products inspire confidence in everyone who wears them—regardless of their pursuit and despite whatever they encounter. Our unwillingness to compromise has always defined us. Our commitment to protection will always differentiate us.

We're excited to announce that in fall of 2022, we relocated our headquarters and manufacturing to Frisco, Texas. Located north of Dallas, Frisco offers our company and employees exciting opportunities to expand as well as increased shipping and distribution efficiencies for the wide range of accounts we support. We are proud to call Frisco, Texas home and look forward to many more years servicing our valued customers from our new centrally located headquarters.

# CAPTIVATE™

Wiley X redefines color with our patented CAPTIVATE technology, which filters out ambiguous light, increasing clarity and definition with vibrant contrast and vivid detail. Offered in multiple lens colors to provide situation-specific benefits in variable light conditions, CAPTIVATE lenses block harmful UVA/UVB light and also UV/HEV blue rays. Like all Wiley X adult glasses, CAPTIVATE lenses meet ANSI Z87.1+ safety standards for unparalleled protection.

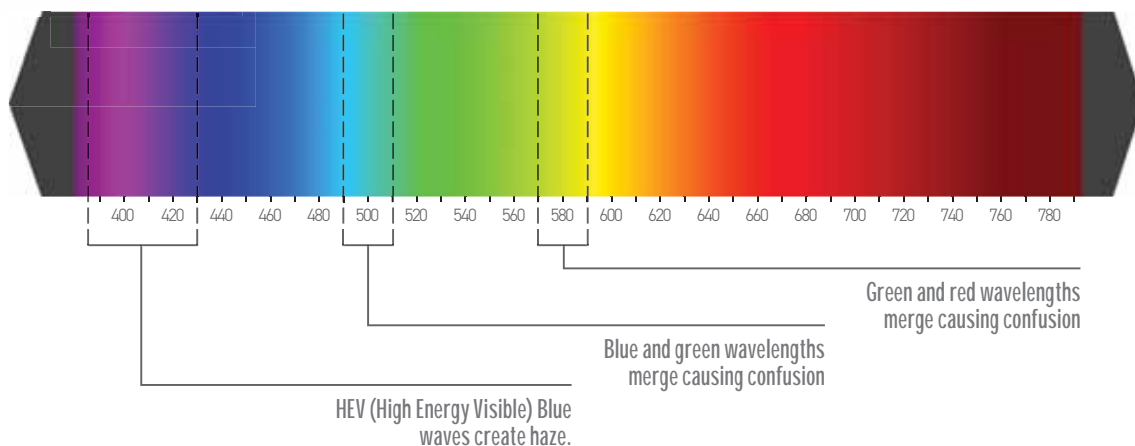

## VISUALIZING THE LIGHT SPECTRUM

Even though the human eye cannot see the entire light spectrum, certain areas are difficult for the eyes to see clearly, while other areas are very dangerous to your eyes' health. CAPTIVATE lenses filter out harmful rays as well as light that confuses the eye, increasing clarity and definition with vibrant contrast and vivid detail.

The visible light spectrum runs in a range of wavelengths from ultraviolet to infrared and is measured in nanometers. A typical human eye will respond to wavelengths from about 380 to 740 nanometers. CAPTIVATE lenses filter out eye-confusing light to make the color spectrum clearer. The result is increased contrast and greater clarity.

### LIGHT SPECTRUM SEEN WITH THE NAKED EYE

### LIGHT SPECTRUM FILTERED THROUGH CAPTIVATE POLARIZATION LENSES

# CAPTIVATE™

## COLOR REDEFINED

CAPTIVATE lenses filter light to reveal vivid detail,  
vibrant contrast, and optimal clarity.

CAPTIVATE redefines color.

## BENEFITS OF CAPTIVATE LENSES

### ENHANCED COLOR

CAPTIVATE filters out confusing light where blues and greens merge and greens and reds merge. The lightwaves CAPTIVATE lenses don't filter are easier for your eyes to see, resulting in vivid blues, greens and reds for a true color experience.

### GREATER CLARITY

Blue light with shorter wavelengths and higher frequencies scatter light and create haze. By filtering out this "bad" blue light, CAPTIVATE lenses remove the haze and allows distant objects to be seen more clearly.

### INCREASED CONTRAST

By filtering lightwaves and bad light, CAPTIVATE lenses increase contrast so you can discern more detail in your environment. Lenses are offered in a variety of tints so you can fine-tune your experience based on the specific needs of your environment.

### BETTER DEPTH PERCEPTION

By eliminating the blue light haze while separating and enhancing colors in the visual spectrum, CAPTIVATE lenses enhance depth perception.

### INCREASED ALERTNESS / ELEVATED MOOD

CAPTIVATE lenses allow the beneficial side of blue light to be seen. This helps maintain the body's Circadian biological clock and the sleep/wake cycle. This beneficial blue light also boosts alertness, helps memory and elevates mood.

### BLOCKS UV / BLUE HEV RAYS

CAPTIVATE blocks the UV (Ultra-violet) and HEV (High Energy Visible) blue rays that are harmful to our eyes, reducing the risk of damage to retinal cells and age-related macular degeneration while also reducing haze.

### WITHOUT CAPTIVATE LENSES

### WITH CAPTIVATE LENSES

## RESILIENCY OF CAPTIVATE LENSES

### OLEOPHOBIC AND HYDROPHOBIC PROPERTIES

Wiley X utilizes a proprietary oleophobic and hydrophobic coatings on all CAPTIVATE lenses to create a smoother lens surface, which helps to keep dust, dirt, oil, snow and water from sticking to the lens. This in turn helps prevent smudging and water spots, making the lenses much easier to clean than an uncoated, standard lens.

### SCRATCH/ABRASION RESISTANCE

CAPTIVATE lenses achieve a Bayer 7 rating\* for scratch resistance. A rating of 4 or higher equates to a premium coating.

\*Plano Lenses

# CLARITY

Wiley X was founded on a commitment to provide uncompromising protection. We apply this same spirit and dedication to building every Wiley X lens for optimal clarity. Wiley X lenses are made from Selenite™ polycarbonate and are ANSI compliant, ensuring crisper, more precise optics, enhanced color contrast, minimized distortion, and visual accuracy. From Digital Edge Thinning prescriptions custom-made in our lab to our patented CAPTIVATE™ polarized color enhancing lenses, we continue to innovate and develop technologies that provide unmatched precision for every lens we build.

## ANSI OPTICAL CLARITY

All Wiley X lenses meet the strict ANSI optical clarity test requirements. We tirelessly test all of our lenses for refractive, resolving astigmatism and prismatic powers. Unlike ordinary lenses that can bend light and distort the true size of objects, our lenses are de-centered and tapered to ensure true spatial relationship of objects and distortion-free clarity.

STYLE: WX VAPOR

## LENS ANATOMY

### CAPTIVATE™

#### GREY BASE LENSES

##### **CAPTIVATE Polarized Grey**

Darkens the light while brightening the world! Provides maximum shade while enhancing contrast of greens, blues, and yellows. Great for general daytime use. Light transmission: 15%

### STANDARD

#### GREY BASE LENSES

##### **Smoke Grey / Polarized Smoke Grey**

Provides glare reduction without distorting colors. Excellent in bright conditions and a perfect all-around choice for sports on water and land. Light transmission: 15%

#### OTHER BASE LENS OPTIONS

**Copper** Superior visual definition. Makes orange-colored targets stand out. Light transmission: 14%

**Purple** Best for medium to low-light conditions. Sharpens contrast and brightens targets. Light transmission: 40%

**Vermillion** Best for medium to low-light conditions. Sharpens contrast and brightens targets. Ideal for water activities, skiing, and extreme sports. Light transmission: 45%

**Light Rust** Filters out most blue light waves, the chief component of glare and haze. Enhances contrast in medium to low-light conditions. Light transmission: 52%

**Yellow** Best light enhancing lens tint. Increased contrast in low to extremely low-light/hazy/dull conditions. Light transmission: 82%

**Orange** Best light enhancing lens tint. Increased contrast in low to extremely low-light/hazy/dull conditions. Light transmission: 55%

**Clear** Maximum light transmission. See precise color values. Hazy or overcast, dusk/dawn conditions. Light transmission: 89%

**Laser Lenses** Ballistic laser lens protection program is designed and developed to block visual and non-visual frequencies with unique dye-filter combination and capabilities in the lens system. Available on special request.

## OPTICAL CLARITY AND ACCURACY

Meeting stringent ANSI Z87.1+ safety standards isn't only about protection; our eyewear is tested to ensure optical clarity and accuracy from the center of the lens out to the periphery.

## ANSI EXPLAINED

ANSI (American National Standards Institute) approves standards submitted by established committees in any given industry. Wiley X is proud to be a part of 3 separate ANSI committees and has a key role in the development and continued evolution of these standards.

ANSI Z87.1+ is the American National Standard for Occupational and Educational Personal Eye and Face Protection Devices. It contains performance specifications, and markings of eye and facial safety products—setting the standards they must meet for protection and optics.

## THE MARK OF HIGH PERFORMANCE ANSI Z87.1+ FRAME AND LENS MARKINGS

- Z87** Designation of the standard.
- 2** The frames can be fitted with a prescription lens, which is the case with most Wiley X styles.
- +** The eyewear frame and lenses have been tested to the high-velocity and high-mass impact requirements of the ANSI Z87.1+ safety standard.
- S** The lens is a filter or a shaded lens (not clear).
- V** The lens is variable-tint photochromic (light adjusting).

# PROTECTION

Founded on supplying military forces and law enforcement personnel with top-of-the-line ballistic eyewear, Wiley X continues to hold safety as our priority. We have adopted this approach by building our entire eyewear line with shatterproof Selenite™ polycarbonate lenses and super-tough Triloid™ frames to provide the highest levels of protection available. From our ANSI Z87.1+ rated sunglasses to our APEL-approved ballistic goggles, Wiley X is continually innovating to deliver unparalleled protection, clarity, and style in every pair of glasses we build.

## ANSI Z87.1+ HIGH-MASS IMPACT TEST

Wiley X ANSI Z87.1+ frames and lenses must withstand the impact of a 1.1 lb projectile dropped from a height of 50" to ensure your eyes are protected from unexpected blunt force impacts.

## ANSI Z87.1+ HIGH-VELOCITY IMPACT TEST

Wiley X ANSI Z87.1+ frames and lenses must withstand the impact of a .25" diameter steel ball. For spectacles, the projectile must be traveling 150-160 fps and for goggles, the projectile must be traveling at 250-260 fps.

## V0 BALLISTICS

Several Wiley X eyewear models are tested to V0 ballistics which consists of a spectacle frame and lens being impacted with a .15 caliber projectile traveling 640-660 fps, or a goggle frame and lens with a .22 caliber projectile traveling 550-560 fps. Wiley X eyewear models that are part of the Authorized Protective Eyewear List (APEL) are tested to the Alpha version of the V0 ballistics standard which consists of a spectacle frame and lens being impacted with a .15 caliber projectile traveling 700-725 fps, or a goggle frame and lens with a .22 caliber projectile traveling 580-590 fps. Both tests are meant to simulate shrapnel potentially encountered on the battlefield.

## REMOVABLE FACIAL CAVITY™ SEALS

Fine dust and pollen, as well as wind, can cause long-term eye irritation, such as Dry Eye Syndrome. Peripheral light can also diminish optical clarity. Wiley X's removable soft foam Facial Cavity™ Seals block out even the finest irritants and peripheral light, protecting the eyes and allowing polarized lenses to perform at peak levels.

## ALTERNATIVE FIT

Wiley X Alternative Fit styles are designed for people who have high cheekbones and a shallow nose bridge. By widening the nose bridge, the eyewear sits higher on the face to prevent contact with the cheeks.

## WILEY X MEETS A HIGHER STANDARD

### WILEY X PROTECTIVE EYEWEAR MEETS ANSI Z87.1+, U.S. MIL V0 BALLISTIC, AND MULTIPLE WORLDWIDE STANDARDS.

When it comes to our troops and law enforcement officers, no amount of protection is too much. As an ISO 9001 certified company, we meet a higher standard than competitors' "marketing claims." Per required government specifications, and as outlined by ANSI Z87.1+ safety standards, we continue to meet the government's highest ballistic impact standards.

## TECHNICAL SPECIFICATIONS

Wiley X's tactical gear does more than just make you look good. Each piece of eyewear and gloves that we manufacture is designed and developed to protect you during your mission. This list will help you find the right piece of equipment for any combat situation.

---

# GLOVES

Wiley X Tactical Series Gloves are designed for superior protection and performance. We offer equipment options to meet your critical response objectives, from military combat, tactical response, field operations, or emergency first responding. Our gloves are designed to maintain high dexterity for quick, precise responses, with extra support in high wear areas for added durability and longevity. Select styles feature touch screen capability, hard knuckle, cut, abrasion, and FR flame resistance.

---

# APX TACTICAL

Whether you're working in harsh conditions, or inclement weather, your hands will be protected with the durable construction of the Wiley X APX. Constructed with moisture-wicking, heavy-duty lycra gussets and synthetic leather knuckle and palm protection, these hard-working gloves also allow maximum breathability and dexterity.

# CAG-1 TACTICAL

Law enforcement and tactical units trust their hands with the WX CAG-1 and its ability to protect in the field, thanks to patent pending injection molded knuckle protectors for impact and abrasion resistance. The molded knuckles give you secure protection when operating in buildings or in your tactical vehicle around sharp edges. Impact-absorbing knuckle protection is welded to the glove and delivers flexible protection against impact injuries and skin abrasions.

## FEATURES

Treated Goatskin Leather for Durability  
Injection Molded Knuckle Protector  
100% Nomex Knit  
Flame and Abrasion Resistant  
Leather Reinforced in High-Wear Areas  
Custom Designed to Match U.S. Military Uniforms

## PRODUCT WARRANTY

**NON-PRESCRIPTION WILEY X, INC. EYEWEAR** has a limited lifetime warranty covering any and all manufacturing defects in material and workmanship.

**YOUTH FORCE® AND WORKSIGHT® EYEWEAR** is warranted against defects in materials or workmanship for a maximum period of 2 years.

**NON-PRESCRIPTION JOHN DEERE® AND DVX™ EYEWEAR** is warranted against defects in materials or workmanship for a maximum period of 1 year. (John Deere® warranty applies to USA and Canada only).

**PHOTOCHROMIC LIGHT ADJUSTING™ LENSES** are warranted against defects in materials or workmanship for a maximum period of 18 months (proof of purchase for Photochromic Light Adjusting™ lenses is required).

**GLOVES** are warranted to be free of manufacturing defects in material or workmanship for a maximum period of 2 years.

**SCOPE OF COVERAGE:** Wiley X will repair or replace covered items at the sole discretion of Wiley X, as needed and as available (identical or equivalent style) at no charge. Out of warranty items may be repaired (if repairable), replaced, returned, or destroyed, at the option and sole expense of the purchaser.

**EXCLUSIONS:** This product warranty and prescription warranty below does NOT extend to and excludes:

- a) any and all Wiley X products purchased through any non-authorized 3rd party websites, dealers or labs
- b) damage resulting from normal wear and tear, including but not limited to scratched lenses and broken frames, hinges, and nose pieces
- c) damage resulting from abuse or misuse
- d) damage resulting from tampering or customer modification
- e) damage resulting from exposure to harmful substances, elements or conditions
- f) other damage to covered items not resulting from a manufacturing defect in materials or workmanship as Wiley X shall decide in its sole discretion
- g) lost or stolen items

## PRESCRIPTION WARRANTY

The following prescription (Rx) warranty extends to Wiley X, Inc., Harley-Davidson®, DVX™, and John Deere® eyewear.

**RX WARRANTY:** Prescription orders processed through Wiley X, Inc. will have a two (2) year warranty from the date of purchase on frames and lenses deemed by Wiley X, Inc. to have manufacturing defects. Prescriptions filled by non-authorized labs will void all Wiley X, Inc. frame and lens warranties. Prescription frame and lens warranties must be handled through the local retailer / dispensing optician from which they were originally purchased.

**CAPTIVATE™ RX WARRANTY:** Wiley X, Inc. will provide a one (1) time scratch redo on CAPTIVATE lenses that covers against basic surface scratches due to normal wear, along with crazing and peeling for two (2) years from the date of purchase. Scratches caused by improper care or abuse are not covered by this warranty. The customer will receive eyewear in the identical form (same frame, lenses, prescription, etc.)

**SCRATCH/COATING RX WARRANTY:** Wiley X, Inc. will provide a one (1) time scratch redo for lenses that covers against basic surface scratches due to normal wear for one (1) year from the date of purchase. Scratches caused by improper care or abuse are not covered by this warranty. If a coating was purchased (anti-reflective, anti-scratch, anti-fog, or a mirror) the warranty is extended to a one (1) time redo within two (2) years from the date of purchase. The customer will receive eyewear in the identical form (same frame, lenses, prescription, etc.)

**DOCTOR REMAKE:** A one (1) time doctor remake on Wiley X, Inc. made prescription lenses is permitted within a forty-five (45) day period from the original order date. The dealer will be charged in full for the remake then will subsequently receive a credit when the original prescription glasses are returned to the Wiley X, Inc. Prescription Department. Original orders must be returned within thirty (30) days of the remake order. All doctor remakes will be billed a \$10.00 shipping fee.

## PRESCRIPTION WARRANTY continued

**RX CHANGES/CANCELED ORDERS:** If the lenses are not in process, prescription changes and order cancellations will be accepted at no charge. Any requests made after a customer order has been put in process will be charged at 50% of the dealer cost.

**NON-ADAPTS:** Dealer will have forty-five (45) days to return a prescription order that is deemed "non-adapt" by their customer. In this instance, the dealer will receive a full refund on the frame and 50% credit on the RX lenses and coatings. No credit or refund will be issued for non-adapts submitted after forty-five (45) days.

**LAB ERRORS:** In the event of lab error, prescription lenses will be replaced at no cost within a forty-five (45) day period of the original order date. Redo will be credited upon receipt of original frame and lenses.

**PATIENT OWNED FRAME (POF):** Wiley X, Inc. accepts POF orders, however, frames must pass Wiley X, Inc. quality inspection. Prior to sending the POF, please verify that the prescription and the measurements are within the tolerance of the Wiley X, Inc. RX Frame Parameters. Please remove any existing prescription or non-prescription lenses from the frame prior to shipping. Wiley X, Inc. will not provide any warranty or be held responsible for any lost or damaged lenses on previous prescriptions sent in with a frame.

**DISCONTINUED PRODUCTS:** Wiley X, Inc. will not RX frames that have been discontinued for longer than six (6) months.

**SHIPPING:** Please package your POF and/or return product securely and use a traceable carrier. Wiley X, Inc. is not responsible for packages lost or damaged during transit caused by carrier or any outside factor.

**PLEASE NOTE:** Due to the nature of a high wrapped frame and in order to achieve superior optical quality, prescription lenses will be compensated accordingly with the consideration of wrap angle, tilt, and vertex distance to be customized to fit your customer's vision needs. This may result in prescription power differential from the one your eye care professional has prescribed. Please do not hesitate to call the Wiley X, Inc. Prescription Department with questions at 888.210.8926

All prescription sales are final

## RETURNS AND EXCHANGES

Returns and exchanges will not be accepted without receiving prior authorization to include an assigned return authorization number. For every one item returned, at least one item must be purchased. Returns must be in resalable condition, as determined by Wiley X for product not discontinued longer than six months. All returns must be shipped prepaid from point of origin, unless prior arrangements have been made. No COD returns accepted. New orders resulting from exchanges will be shipped upon receipt of returned merchandise unless other arrangements have been made with Wiley X. Customers are responsible for all shipping charges, both inbound and outbound. Returns should be sent to the attention of the RETURN DEPARTMENT.

## TERMS AND CONDITIONS

Extreme care is taken when packaging all products we ship. If a discrepancy occurs, a claim should be made immediately.

Standard Terms: NET30 (upon credit approval); Credit Card (Visa, Master Card, Discover, American Express).
