

SureDscale™ S

STRONTIUM SULPHATE SCALE DISSOLVER

OVERVIEW

SureDscale™ S offers effective dissolution of strontium sulphate (SrSO_4) and celestite scale or minerals. The chemistry is applicable for process facilities such as storage tanks or exchangers.

SureDscale S is effective only with water-wet scale and requires a surfactant/mutual solvent treatment stage if the scale is oil-wet.

APPLICATIONS

- Fast acting scale dissolver for strontium sulphate (SrSO_4) scale or minerals
- Applicable for scale removal from process facilities

FEATURES

- Fast-acting chemistry
- Non-corrosive towards most oilfield metallurgies

BENEFITS

- Eliminates long soak times
- Non-hazardous products that are very easy to store, transport and handle
- Compatible with most commonly used elastomers
- Very effective in high and low temperature applications
